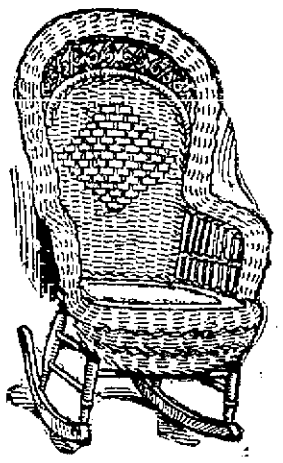
ESTABLISHED 1846 | NEWPORT, R. I., SATURDAY, FEBRUARY 18, 1911.—TEN PAGES. | PRICE TWO CENTS.

ROCKER LUXURY.

At the Minimum of Cost.

Nothing will fill the necessity for chamber comfort quite so splendidly as a wicker rocking chair—but it must be built on luxurious lines similar to those of the Titus example you see at the left.

A radical departure from "cut and dried" designs in the weaving will be observed in the back and also below the front edge. The rocker is only one of many from a great stock, but it is



A TITUS SPECIAL

and therefore deserves more than passing comment for its individuality and intrinsic worth. We can well afford to call it—as we do above—"Rocker Luxury at the Minimum of Cost."

The chair was picked at random—there are others here of equal merit of course, where you will always find the unusual in furniture. The price is an exceptionally low one. $4 95

REPORT WITHOUT RECOMMENDATION.

Probable Fate of Bill in Senate Committee.

No Disposition to Delay the Reciprocity Measure.

WASHINGTON, Feb. 18.—The finance committee of the Senate was called together today for consideration of the McCall bill to supply the legislative machinery required to put into effect the reciprocal trade agreement with Canada. Three or four days probably will be consumed by the committee in reaching a decision as to the manner of reporting the bill, but even its most obdurate opponents are unwilling to bear the responsibility of longer delay than that. It was decided to limit hearings to Monday and Tuesday. Practically all the requests for hearings came from agricultural interests. The committee was in session an hour and a half and adjourned until Monday.

Whether there are enough votes in the committee to report the bill favorably probably will not be known until Monday, when Senator Hale will be able to be present. As a matter of fact, the members of the committee feel that it is immaterial how the bill is reported, whether favorably, adversely or without recommendation. The indications are that the last method will be employed, in the interest of the early transfer of the fight to the floor of the Senate, in accordance with promises which have been made to President Taft. It is known that a majority of the finances committee would oppose any attempt to smother the McCall bill.

The most ardent supporters of Canadian reciprocity on the finance committee are Senator Cullom of Illinois, a Republican, and Senators Money of Mississippi and Stone of Missouri, Democrats. Had it not been for the injury feared to the fishing industry of Gloucester, Mass; Senator Lodge of that state naturally would have been the leader in the forthcoming struggle in the Senate. It may be that he will assume this position, if the President asks him to do so, notwithstanding the fact that its opponents claim that it menaces one of the great Massachusetts industries. Mr. Stone is the leader of a considerable faction of the Senate minority. Senators Bailey, Taliaferro and Simmons, the other minority members, probably will oppose the agreement.

Senator Burrows, acting chairman of the committee in the absence of Senator Aldrich, and Senators Smoot and Flint, though opposed to the agreement on the ground that it endangers the principle of protection, usually are found among those supporting administration measures. It is certain that these Senators will not consent to any dilatory tactics in committee. Senators Hale and McCumber are bitterly opposed to the agreement, while the position of Senator Penrose has not been declared.

Many Senators today examined with more than usual interest a roll-call in the Senate yesterday, by which an executive session was ordered over the protests of Senators who desired to continue consideration of the resolution on direct vote for Senators. It was said that the roll-call disclosed what members of the minority may be expected to oppose the reciprocity agreement. The Democrats in question are known to favor popular election of Senators, and therefore their opposition to continuing with that subject is taken as an indication that they desire this measure kept "on top" to be used against reciprocity and the bill to create a permanent tariff board.

The Senators voting against the executive session and those not voting at all who are said to be subject to this classification are Bacon of Georgia, Bailey of Texas, Johnson of Alabama, Simmons and Overman of North Carolina, Foster and Thornton of Louisiana and Paynter of Kentucky. This analysis of the roll-call, when submitted to some of the minority Senators who are known to favor both reciprocity and the creation of a permanent tariff board, was approved by them as indicative of the general feeling.

There is some evidence of a disposition on the minority side of the Senate to compel President Taft to "make good" on extra session intimations which are said to have emanated from the White House. Some of the Democrats express the belief that an extra session would tend to demoralize the Republican forces and directly benefit the Democrats in the next national campaign.

The annexation talk of the past few days has had no effect whatever upon the reciprocity situation at the Senate end of the Capitol. Senate leaders accepted at par the statement of Mr. Clark that the was speaking for himself alone, and the annexation resolution introduced by Mr. Bennet was discounted on the ground that it was employed by an opponent of the Canadian agreement as an additional argument against such an agreement.

FOR LATE MEMBERS.

Senate to Pay Tributes to Memory of Dolliver and Clay.

WASHINGTON, Feb. 18.—Tributes to the memory of the late Senator Jonathan P. Dolliver of Iowa, and Alexander S. Clay of Georgia, will be paid in the Senate of the United States this afternoon. Senators Cummins, Gollon, Tillman, Clapp, Beveridge, LaFollette, Gore, Chamberlain and Young will speak of the life and character of Mr. Dolliver. Mr. Clay will be eulogized by Senators Bacon, Scott, Taliaferro, Lodge, Overman, Carter and Bailey. The Senate, Monday, will hear eulogies on the late Senators Daniel of Virginia and McEnery of Louisiana.

MINORITY REPORTS FILED.

Bennet's Resolutions for Canadian Annexation on House Calendar.

WASHINGTON, Feb. 18.—Representative Bennet of New York has had both his resolutions directed toward Canadian annexation placed upon the calendar of the House. The foreign affairs committee made adverse reports on both the Bennet resolutions and today he filed minority reports on the resolutions and put them on the calendar, with the adverse reports of the committee.

LATEST NAVAL NEWS.

Orders to Officers and Movements of Vessels Reported.

(Special despatch to the News.)

WASHINGTON, Feb. 18.—The following order was announced by the Navy Department today:

Chief Boatswain G. B. Monerief, placed on the retired list, from March 4, detached from the Hartford and ordered home.

The following movements of vessels were reported today by the department:

Arrived—Prairie at Boston, McCall at Hampton Roads, Paulding, Drayton and Roe, at Galveston.

Sailed—Montana and North Carolina, from Guantanamo for New York; Tennessee, Salem and Chester, from Guantanamo for New Orleans; Patuxent, from Guantanamo for Samana Bay; Lebanon, from Guantanamo for Hampton Roads; Hannibal, from Norfolk for Philadelphia; Patapsco, from Norfolk for Rockland, Maine.

Lord.

TEUSTEPE CAPTURED.

Revolutionists, Who Capture Town, Dislodged by Government Force.

SAN JUAN DEL SUR, Nicaragua, Feb. 18.—It is reported from government sources that a group of revolutionists captured the small town of Teustepe, but were later dislodged by government forces. Teustepe is north of Lake Nicaragua, about 40 miles from Managua, the capital.

INSURRECTOS SEIZE TONICHA.

Train Service on Yaqui River Line Given Up Because of Revolution.

GUADELAJARA, Mexico, Feb. 18.—According to advices received at the local office of the Southern Pacific Railroad train service on the Yaqui River line in Sonora has been discontinued because of the revolutionary action. Tonicha, the terminus of the road, is in possession of the insurrectos, the despatch states, and the camp of the Sunset Development Company, a Southern Pacific property, has been taken possession of. Americans in camp were not molested.

BERTHOLD AT THE BORDER.

Insurrecto Leader Successful in Securing More Arms and Recruits.

LOS ANGELES, Cal., Feb. 18.—According to members of the local junta General Berthold, second in command of the insurrectos at Mexicala, has again returned to the border after having been successful in securing more arms and recruits. They also report that Berthold delivered important messages here, which have been passed along the line from Orozco and other insurrecto leaders in Chihuahua.

SCOUTS BOUND FOR BORDER.

United States Troops Go to Mercedes to Intercept Mounted Mexicans.

BROWNSVILLE, Texas, Feb. 18.—Scouting parties of United States troops have been dispatched to Mercedes to intercept a band of 25 mounted Mexicans, reported in a despatch to military headquarters here to have passed through that city last night bound for the border. The men endeavored to secure a supply of ammunition in Mercedes, it is stated, but were unsuccessful.

IN REGARD TO FILIBUSTERING.

Indictments Returned Against Bonilla and Other Revolutionists.

NEW ORLEANS, Feb. 18.—Indictments were returned today by the United States grand jury against Manuel Bonilla, leader of the revolutionary forces in Honduras; Lee Christmas, his chief lieutenant; Jose W. Beer and Florian Dabidi, in connection with the alleged filibustering expedition on the Hornet, which sailed from this port last December.

INCREASED ACTIVITY SEEN.

Cotton and Worsted Mills in Rhode Island All Busy.

PROVIDENCE Feb. 18.—With the cotton mills running in full, despite curtailment elsewhere, a renewal of activity in the woolen and worsted business places the 60,000 textile operatives of Rhode Island in a fairly prosperous condition, compared with other sections of the country. The mills in Olneyville, the great woolen and worsted manufacturing district of this city, have shown greater activity this week than has been noticed for some time. Several of the mills are running night shifts and others have increased their working forces. The arrival of large quantities of wool lately gives promise of continued activity.

A "SPOTLESS TOWN RECORD."

No Arrests Made in East Providence in Nine Days.

EAST PROVIDENCE, Feb. 18.—The people of this town are on the good behavior in the hopes of establishing a "spotless town" record, for although East Providence has a population of 16,808 there has not been an arrest in nine days. This fact cannot be ascribed to lack of police protection, for the town has a force of 17 patrolmen and a chief. Chief Lafayette M. Roderick, whose legal title is "town sergeant," according to the old Rhode Island custom, cannot offer any reason for this unusual circumstance, except that the people are unusually good.

STEAMERS REPORTED.

SABLE ISLAND, Nova Scotia Feb. 18.—George Washington, from Bremen etc., for New York, 650 miles east of Sandy Hook at 4 a. m., will dock about 6:30 p. m. Sunday.

SABLE ISLAND, Nova Scotia, Feb. 18.—Lapland from Antwerp and Dover for New York, reported 738 miles east of Sandy Hook at 6.40 a. m., will dock about 9 a. m. Monday.

SIASCONSET, Feb. 18.—Espagne from Havre for New York, 343 miles east of Sandy Hook at noon, will dock about 9 a. m. Sunday.

SIASCONSET, Mass. Feb. 18.—Lauretic from Liverpool and Queenstown for New York, 393 miles east of Sandy Hook at noon, will dock about 3 p. m. Sunday.

CLAIM IMMUNITY FOR DEFENDANTS.

Gained by Course of Government in Civil Suit.

Plea to Dismiss Criminal Case Against Bath Tub Trust.

DETROIT, Mich., Feb. 18.—Alleging that the individual defendants in the government's criminal case against the so-called Bath Tub Trust have been granted immunity, by the course of the government, in the civil suit begun in Maryland, Attorneys Stevenson, Carpenter and Butzel today filed a plea in the local federal court to have the criminal case dismissed.

United States District Attorney Watson filed a demurrer to the plea of dismissal. In the demurrer it is alleged that answers such as were made by the defendants in the civil suit in Maryland are not of the nature contemplated by the immunity statutes, in that these answers were made in a court of equity. It is further alleged by the government that in the answers at Baltimore, referred to, the defendants avoided and denied all the material allegations set forth in the indictments.

In the plea it is declared that the subpoenas served on all the civil suit defendants required answer under oath, that the defendants filed such answers, and that in these answers they disclosed certain facts pertaining to the things charged against them in the indictments found by the grand jury at Detroit. The immunity statutes, it is declared in the plea, provide immunity for persons who may give testimony or produce evidence, documentary or otherwise, concerning the things included in the counts of the indictments.

Counsel for the defendants recite that they called the attention of the Attorney General, by telegraph, to the fact that the civil suit subpoenas required answers under oath and asked for an extension of time that might possibly be necessary. The reply, they allege, was favorable, giving them permission to have the answers sworn to after their filing.

It is alleged in behalf of the defendants that these documentary answers, sworn to and properly filed in Maryland at the request of the government, give immunity to the defendants, regardless of whether they were actually called to the stand to give testimony in the suit.

MEASURES PROVE BENEFICIAL.

Many Moslems Hanged in Work of Restoring Order in Adana.

BOSTON, Feb. 18.—The punitive measures adopted by the Turkish government, following the massacres of Christians at Adana, a year ago, have proved salutary, according to despatches received today at the headquarters of the American Board of Commissioners for Foreign Missions. The despatch stated that in the work of restoring order in Adana it was necessary to hang a good many Moslems.

If the present reign of order is broken by the Moslems there will be more hangings, it is declared. The result of those measures was that order was completely restored; the families that had fled returned, and affairs soon assumed their former condition. The governor and the police commissioner, and all the leading officials, worked in perfect harmony in suppressing what the governor called "a disturbance of a few worthless fanatics."

Owing to the large fanatical element, the officers of the American board believe that it is possible for local disturbances to occur, but they express confidence that there can be no general uprisings against the Christian population, since the army is now made up of a large proportion of Christians and, therefore, can no longer be reckoned as the defender of the faith of Old Islam, but must be recognized as the defender of good order.

TO END THE DEADLOCK.

Governor Dix Seeking the Withdrawal of Sheehan.

NEW YORK, Feb. 18.—Intimations were given in highly authoritative quarters today which lead to the conclusion that, beyond scarcely a shadow of a doubt, Governor Dix had reached the belief that there is no prospect of breaking the present Senatorial deadlock at Albany so long as former Lieutenant Governor William F. Sheehan is a candidate. That the governor is seeking to bring about the end of the deadlock, through a compromise involving the withdrawal of Mr. Sheehan, was the only impression which could be gained from the intimations made by the authority in question.

It was made plain that the governor has no idea of departing from the policy he first announced, of not attempting to influence in any way any legislator's exercise of his right to vote as he pleases on the Senatorship. The governor's aim, as it has been since the deadlock developed, is to clear the way for the legislation he hopes to see passed at this session, which he regards as important to the success of his administration. Yet the implication is clear the executive is tiring of the present situation at Albany and would be gratified if in some way it should be made clear to Mr. Sheehan that his prospects of election are hopeless. It could not be learned that any direct statement by the governor on the matter was forthcoming; in fact, the idea conveyed was that there would not be.

No Quorum Today.

ALBANY, N. Y., Feb. 18.—On the twenty-eighth joint ballot for United States Senator, today, there was no quorum.

ADVANCE STYLES —IN— Spring SUITS.

A record that is unparalleled in the history of any store was made this year by us when we made a clean sweep of our entire stock of winter suits. Proud of this fact we are in duty bound to compensate the buying public by offering you the newest spring suits thus early in the season. While other stores are trying to force sales of past season suits this store with its clean record is offering new spring suits at prices as low as other stores' old winter stock. Of course we do not claim, as yet, such a complete variety as this store usually carries, but we have enough styles and prices to interest the buying public There is no wisdom in buying an old winter suit when the "BEE HIVE" exclusively offers you brand new ones.

Prices $11.75, $13.50 and $16.50.

HESS-LEYS CO.

WITHOUT RECOMMENDATION.

[illegible] to Prohibit Gambling in Cotton Futures Reported.

WASHINGTON, Feb 17.—Under agreement that they would vote to-[illegible] on the bill to prohibit gambling [illegible] cotton futures, the committee on interstate commerce decided, by a vote [illegible] to 5, to report it to the Senate without recommendation.

The failure of the committee to make a recommendation on the bill resulted from the conviction on the part [illegible] several members that a measure of [illegible] importance should be given more consideration than was possible under [illegible] day's decision to vote. An agreement [illegible] been made, however, and Senators [illegible]arke of Arkansas and Tillman of South Carolina held the committee to [illegible] word.

Three sections of the bill, as it passed the House, were eliminated by [illegible] Senate committee and some of the friends of the measure say the changes would make the measure non-effective. [illegible] sections struck out are those which would authorize agents of telegraph, telephone or cable companies to administer oaths in their efforts to ascertain whether messages offered for transmission were in violation of the law, declaring that books, newspapers, pamphlets, letters or other writings or [illegible] [illegible] in violation of the [illegible] should be non[illegible] [illegible] that the Postmaster General on evidence satisfactory to himself, might return mail to the senders when he believed it to be unlawful under the proposed act.

The action of the committee was preceded by a hearing which consumed the entire forenoon so that when the committee came to determine its course it had no time for an exchange of views. The result was that most of the members of the committee were unwilling to endorse a bill of so drastic a character, although they were in favor of some measure that would eliminate gambling from the dealings in cotton.

Representatives of the New Orleans Cotton Exchange and Exchanges at New York and Chicago trained their guns upon the bill in the hearing. They attacked the bill as being hurtful to the farmer and impossible of enforcement, so far as its evident purpose is concerned. The hearing was attended by a large number of Senators from southern states who are not members of the committee, and a number of southern Congressmen, all of whom displayed great interest in the proceedings.

BIG SUM IN PUBLIC BEQUESTS.

Miss Curtis of Wellesley Remembers Massachusetts Institutions.

DEDHAM, Mass., Feb. 17.—Nearly $150,000 in public bequests is distributed under the will of the late Miss Alice M. Curtis of Wellesley, which was filed for probate in the Norfolk county probate court here today. The largest bequest, $50,000 is left to the town of Hanover for the benefit of the John Curtis Free Public Library. The Museum of Fine Arts, Boston and Radcliffe College, Cambridge, each receive $25,000, and $20,000 is left to the New England Hospital for Women and Children, Roxbury. There are bequests of $5,000 each to the Massachusetts Society for the Prevention of Cruelty to Animals, the Woman's Educational and Industrial Association of Boston, Atlanta University, Hampton Institute and Tuskegee Institute. The Animal Rescue League of Boston is given $2,000.

Upon the death of certain persons benefiting under the will a trust fund is to be established which is to be administered equally to the New England Hospital for Women and Children, Radcliffe College and the town of Hanover. There is nothing to indicate how large this trust fund eventually will be, nor does the inventory give any idea of the total value of the estate.

MRS. EDDY'S LETTERS GUARDED.

Court Restrains Boston Firm from Advertising Them for Sale.

BOSTON, Feb. 17.—Another phase of the litigation over the estate of the late Mrs. Mary Baker Glover Eddy, founder of the Christian Science [illegible] church, came [illegible] in the [illegible] session [illegible] superior [illegible] today, [illegible] Judge [illegible] ardson [illegible] a temporary injunction restraining a Boston publishing firm from distributing a catalogue advertising for sale certain letters written by Mrs. Eddy, or in any manner making public any part of the letters.

A hearing was set for Monday, February [illegible]. The petition for the restraining order was brought by attorneys for Henry M. Baker of Bow, N. H., executor of Mrs. Eddy's will.

In the bill of complaint Mr. Baker states that a number of private unpublished letters written by Mrs. Eddy may have come into the possession of the Boston firm and that it has advertised three letters for public sale at auction February 23. In addition the bill states the Boston firm has printed material and substantial parts of the letters [illegible] [illegible] and portions of the letters have been published in newspapers of Boston, New York and other cities.

Mr. Baker declares in the bill that the literary property in said letters has passed to and is now in him as said executor; that neither he nor Mrs. Eddy in her lifetime has given any consent to such sale or publication, and that such sale and publication interferes and will interfere with the right of your orator to issue an authorized edition of the letters of Mrs. Eddy which [illegible] [illegible] [illegible]

PYTHIAN ORDER UNDER FIRE.

Complaint Against Supreme Lodge's Insurance Department.

WASHINGTON, Feb. 17.—Allegations for an investigation of the insurance department of the Supreme Lodge, Knights of Pythias, was made before the supreme court of the district of Columbia by John H. Turpin of Greensboro, Md. Mr. Turpin is a certificate holder of what is known as the fourth class [illegible] endowment rank of the Knights [illegible] [illegible] contends that [illegible] [illegible] of the lodge to raise the amount of assessments on certificates of the fourth class [illegible] [illegible] rights. He further [illegible] that several hundred thousand dollars have been wrongfully diverted from the class of certificates to another.

Judge [illegible] issued a rule [illegible] the officers of the lodge to show cause why relief should not be granted to certificate holders of the fourth class.

RUSSIA PLANS NAVAL INCREASE.

Government Asks for $60,000,000 to Build Four New Battleships.

ST. PETERSBURG, Feb. 17.—The government has asked the Douma to vote $60,000,000 for the construction of four battleships by 1915.

A Coiffure Bonnet.

For evening wear in the automobile there are bonnets which may be tied on over the carefully arranged hair. This bonnet is made of the thinnest silk shirred to a turned back front piece of white kid. On the kid [illegible] out piece there are cabochons made also of the kid, with silk pleating around the edge, and the strings are of white chiffon.

MANN'S FILIBUSTER.

Illinois Member Probably Kills Omnibus Claims Bill.

WASHINGTON, Feb. 17.—Representative Mann of Illinois conducted a one-man filibuster for hours in the House today and tonight and, it is believed, killed the omnibus claims bill so far as the present session of Congress is concerned. With only 11 legislative days remaining, Mr. Mann held the House of Representatives at a standstill hour after hour. It has often been asserted by Speaker Cannon and others that a majority of the House can do what it pleases, but today's events proved otherwise.

It was private calendar day under the rules and the business in order was the consideration of the omnibus war claims bill, already passed by the Senate. The bill largely affects Southern claimants and the Democrats, with the assistance of a large number of Republicans, endeavored to pass it. At times the majority in favor of the bill was as high as 140, but Congressman Mann was opposed to the bill and by dilatory tactics succeeded in preventing action on it, although the House was in session from 10 a. m. till 9:25 o'clock tonight.

At that hour the advocates of the measure obtained a recess until 11 a. m. tomorrow, under the assumption that the legislative sitting of today would then be resumed.

It turned out after this action, however, that they probably defeated their own purpose, for 11 o'clock is now the regular hour for meeting, and it is believed that Speaker Cannon will hold that tomorrow's sitting is a new legislative day. If he is successful in maintaining this ruling the omnibus claims bill will go by the board.

Today's filibuster was one of the most remarkable in the history of the House. At one time tonight, to obtain a quorum, the sergeant-at-arms was directed to arrest all absentees. With assistants that official started in pursuit of the missing members. But before any arrests were made enough absentees drifted into the chamber to make a quorum and further proceedings under the order were dispensed with.

BUCKET SHOP MEN GO FREE.

Fines Aggregating $8,100 Satisfy the Department of Justice.

WASHINGTON, Feb. 17.—Satisfied with the fines aggregating $8,100 recently paid by the three principals of the firm of E. F. Boggs & Co., alleged bucket shop operators, the Department of Justice today authorized United States Attorney Wilson to nol-pros the indictments against four other men charged with conspiracy to run a bucket shop in Washington. They are William H. Lillis of Brooklyn, N. Y.; Robert A. Clay of New York city, and Alfred and Marshall F. Parrish, both of Philadelphia.

CRITICISMS ON THE OREGON.

Some Navy Officials Opposed to Repairing and Equipping the Old Battleship.

Along the Pacific coast, which has been demanding a fleet, there is dissatisfaction, which is shared by some navy men, over the expenditure of [illegible] in repairing and equipping the old battleship Oregon at the Puget Sound yard. She has a new battery, a [illegible] and the latest style of [illegible] [illegible]

[illegible]

THE CAT ON THE STAGE.

[illegible] thought it part of [illegible] [illegible] [illegible] [illegible] that [illegible] it must have been [illegible] Naturally Miss [illegible] was a little [illegible] by the fact that something was going on which [illegible] the attention of the audience from her and turned to see what was happening. There sat pussy as quiet [illegible] [illegible] Miss Davis [illegible] completed the situation even more effectively than she had [illegible]. To the cat she said: "What are you doing here? Don't you know this is a monologue, not a dialogue?" The cat promptly rose and walked off the stage, seemingly comprehending that she had made a bad error.

THE LAKE SUBMARINES

Three Boats of This Type, The Seal, Tuna and Turbot, to be Added to the Navy.

Three submarines of the Lake type will soon be added to the United States navy. The first of these, the Seal, has already been launched from the yard of the Newport News Shipbuilding and Dry Dock Company. Another Lake boat, the Tuna, is under way at the same yard, and the third, the Turbot, is being constructed at the yard of the Lake Company at Bridgeport, Conn. The contract calls for her delivery in 20 months.

The Seal, when completed, will be the largest and most powerful submarine in the United States service, with general dimensions and chief characteristics as follows: Length over all, 161 feet; extreme beam, [illegible] feet; submerged displacement, about 525 tons; armament, six torpedo tubes, with stowage for 10 torpedoes; contract calls for 14 knots surface speed, but 16 knots are expected; submerged speed called for is 9½ knots; the cruising radius at economical speed on surface will be over 2,500 knots. She is heavily armed with torpedo tubes, and is designed for long ocean cruises in rough weather and without tender. The boat will be in command of Lieutenant Kenneth [illegible], U. S. N., and it is expected that she will be ready for her builders' trials the fore-part of April, and for official trials about May 1.

The following distinctive features are characteristic of the Lake type of submarines, and are embodied in the Seal: Bottom wheels, diving compartment, hydroplanes, drop keels, anchor weights. The bottom wheels are used in shallow waters. In moving on the bottom a cyclometer gives a fairly accurate record of the distance traveled and the gauges give an absolute record of changing depths. The diving compartment provides an exit for a diver sent for investigation or for making repairs to the vessel, and it furnishes a safety chamber for the escape of the crew in case of accident.

By the use of the hydroplanes the boat can be kept at a uniform depth. The drop keel permits the release of several tons of weight and a corresponding increase in buoyancy. It also increases the longitudinal stability of the boat. The anchoring weights are [illegible] to secure immobility at any desired [illegible] [illegible] the vessel can be drawn to the bottom by winding in their cables. [illegible] weights can be operated without the exposure of any of the crew on deck, and, if necessary, can be cast [illegible] instantly to increase the buoyancy of the vessel. A special form of storage cells and connections is used in the batteries of the Lake boats.

[illegible] statistics of building operations [illegible] [illegible] by the F. W. Dodge Company [illegible] contracts awarded from the first [illegible] year to February [illegible] [illegible] 3,338,[illegible]. In the corresponding period last year they were $1[illegible]; in 19[illegible], $13,036,000; in 1906, $[illegible]; in 1907, $13,721,000; in 1906, $8,861,[illegible] and [illegible] 1905, $7,596,000.

ONLY ONE

The Record in Newport is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Newport citizens testify to this. Here is a case of it:

P. S. Boswell, [illegible] Spring St., Newport, R. I., says: "My experience with Doan's Kidney Pills occurred two or three years ago. At that time my kidneys were weak and resulting from [illegible] an almost constant pain in my back. The kidney secretions were also irregular in passage and added greatly to my annoyance. Hearing Doan's Kidney Pills highly recommended, I was led to procure a supply at Wright & Hay's Drug Store and I can say that the results of their use were very satisfactory. Should I ever have need of a kidney remedy again, I would at once get Doan's Kidney Pills, knowing that good results would follow their use. Several weeks ago I gave this remedy to a friend who was suffering from kidney complaint and its use proved exceedingly beneficial."

For Sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

STEADY EXPANSION IN TRADE.

Despatches to R. G. Dun & Co. Show Confidence in Future Business.

NEW YORK, Feb. 17.—Despatches to R. G. Dun & Co. indicate a slow but steady tendency toward expansion in general business and future prospects are regarded with increasing confidence. Moderate improvement is apparent at Boston, with the outlook steadily brightening for more active operations in leading branches of trade. Drygoods jobbing houses report fairly good demand, with larger buying of staple and fancy ginghams and percales. The cotton goods market at first hands is quiet, however and further curtailment of production is noted at New England mills. More machinery is employed in woolens and worsteds, while improvement appears in pig iron.

Bank exchanges this week at all leading cities of the United States aggregate $2,452,822,532, a loss of 11.[illegible] per cent as compared with the corresponding week last year, but a gain of 10.3 compared with the same week in 1909.

MULES INCREASING IN VALUE.

All farm animals, excepting sheep, showed an increase in average value per head January 1, compared with their value on that date in 1910, according to the Department of Agriculture. Mules showed the greatest increase in value, it being $5.78, or $125.62 a head. Values of other animals were: Horses, $111.67, an increase of $3.48; milch cows, $40.49, an increase of $4.70; sheep, $3.73, a decrease of 35 cents, and swine, $9.35, an increase of 21 cents.

PORTSMOUTH.

Sudden Death of Edward R. Anthony, Formerly Town Treasurer.

Found Dead in Bed Friday Evening, Having Taken a Prize at the Grange Thursday.

[Regular correspondence of The News.]

Mr. Edward R. Anthony of Quaker Hill was found dead in bed about 10 o'clock Friday evening. He had retired about 9:30 and when, half an hour later, Mrs. Anthony went to their room she could not rouse him nor did he show any signs of life. The family physician, Dr. Minot A. Steele, who is also medical examiner, responded to a call immediately, but nothing could be done. The cause of his death was heart disease, with which he had been troubled for quite a while this winter, but of late had been so much better that it was not giving him any uneasiness. He had been to Newport on the car, returning home about 5 o'clock; ate supper, had a nap on the couch and went to bed in apparent good health.

He was about 50 years of age, the oldest of the nine children of Mr. and Mrs. Henry Anthony, who live only two minutes walk distant and celebrated last Christmas with nearly all the children and grandchildren present, more than 30 in number. The children were Edward R. Anthony, Mrs. John E. Manchester (Lottie), Mrs. Fred Anthony, Jamestown (Sarah); George I. Anthony, Mrs. Frank White (Lois), Mrs. John Spooner, Middletown (Ruth), Abner P. Anthony, Mrs. Ernest R. Fish (Edith) and Mrs. Isaac L. Fish, Jr. (Anne). This is the first break in the family circle. He leaves a wife, formerly Miss Fannie Chase; an adult son, Borden L. Anthony and a Rogers High School pupil, Miss Clara Anthony.

Mr. Anthony was for a number of years town treasurer of Portsmouth, and recently has been in charge of the spraying of trees, under the direction of the State Board of Agriculture, for the extermination of the gypsy and brown-tail moths and elm-leaf beetles on the island.

Portsmouth Grange held its regular meeting at Fair hall Thursday evening, with a large attendance. After the usual opening exercises and matters of business, the meeting was put in the care of the lecturer, Mrs. William K. Boyd, who had prepared a program of valentine party games, each person being decorated with hearts and Cupids. In pinning small hearts on a large one, blindfolded, Mr. Edward R. Anthony came nearest and took the prize, a Cupid fisherman. Miss Phebe A. Coggeshall, who was farthest away, took the consolation, an old bachelor climbing a string after a heart. Next came shooting of hearts with a toy pistol. Mr. I. Lincoln Sherman took the first prize, a Cupid caddy, and Miss Theresa Peckham the consolation, an old maid climbing after a heart. A game called "fruit basket" was the last played, and for refreshments a pie of many varieties, representing the best of culinary art in that line, was served. It was a meeting where merriment was continuous and universal. Charades, pantomimes and tableaux will be the amusement of the lecturer's hour at the next meeting.

Miss Flora Phinney has gone to Pawtucket to spend her vacation with her sister, Mrs. Herbert Russell.

Mrs. Henry Sherman, who had been ill for a long time before going to the Newport Hospital a month ago, returned home Friday, much improved in health.

Mr. and Mrs. William G. Albro entertained at whist recently.

Mr. Robert T. S. Allen of Tiverton has been spending a few days with his aunt, Mrs. Lincoln Sisson, and family.

Miss Helen B. Thompson of Kingston College is to speak during the lecturer's hour at Newport County Pomona Grange on "Vital Needs and Their Satisfaction." The meeting will be held with Nonquit Grange at Tiverton Four Corners.

Mr. John G. Barker, who has had quite a severe cold as to be confined to bed, is improving.

Mrs. William J. Elliott, now of Newport, is to return to Portsmouth and occupy her house on Glen street, which will necessitate the removal of one or more of the present tenants.

Mr. and Mrs. George Hart and Mrs. David Brown.

Mrs. Lucy Coggeshall of Glen street, who has been spending a few days with her son and family in Newport, went Friday to Boston to visit her elder son, Mr. William Henry Coggeshall.

Mr. Daniel B. Almy's malady increases rapidly. His nephews and nieces from out of town make him many visits. Wednesday Mr. Elijah Anthony of Jamestown and Mrs. John Bellows of Providence were there, and Thursday, Mr. and Mrs. Abram A. Brown of Middletown and Mrs. Thomas Giles Carr of Jamestown.

Mrs. Augustus L. Wilbur of "Laurel Farm" has received news from her brother, Mr. Marion McAllister Gentle, who is in the employ of Niles, Bement & Pond, who deal in all kinds of armaments, having business houses all over the world, that he will start for Constantinople the first of March in the interests of the company.

There were 16 boys of the Holy Trinity Church in the party entertained by Rev. James H. Dennis and his sister, Miss Jane Dennis, at "Willow Brook." Two clergymen, Rev. Charles A. Deaner and Rev. Joseph M. Hobbs, both of Providence, were also guests. After a dinner of several courses, which the boys greatly enjoyed, the three clergymen made earnest addresses to awaken interest in the church work of Holy Trinity, after which songs and games were in order.

Mrs. Charles G. Clarke has returned from New Bedford, where she was guest of Miss Mary Lamb.

Miss Sadie Harticon, teacher at the Vaucluse school, is preparing exercises for Monday which will include both Washington's and Washington's birthdays. There will be songs, recitations and readings.

The Ladies' Aid of the Methodist Episcopal Church had the usual supper with a good attendance.

WEST VIRGINIA REJECTS THE INCOME TAX.

The West Virginia senate, by a vote of 23 to 13, has rejected the income tax amendment to the federal constitution. The amendment was ratified by the house of delegates recently, the two negative votes being cast in each branch. In the voting in the senate the Democrats and seven Republicans cast the votes against the amendment.

BATTLE PRACTICE DATES.

It is announced at the Navy Department that the battle practice of the Atlantic fleet will begin April 1, on the southern drill grounds. The battle practice of the Pacific fleet will begin on the same date and will be held off Santa Barbara or San Diego. The battle practice of the Pacific torpedo fleet will begin March 17.

MELLEN ACQUIRES NEW SYSTEM.

New Haven Road Secures Control of Rutland Stock in Opposition to Grand Trunk.

A counterstroke of the New York, New Haven & Hartford interests against the entry into the New England field by the Grand Trunk through its proposed extension of the Vermont Central from Palmer, Mass., to Providence is announced. Parties in the interest of the Vermont Valley Railroad Company have acquired 23,520½ preferred shares of the Rutland Railroad Company from the New York Central road. The significance of the purchase of the Rutland Railroad stock by what is practically the New Haven road appears in the fact that it is aimed directly at the proposed development of Providence as a shipping and commercial point by the Grand Trunk.

The important parts of the Rutland are those extending north from Rutland and the line to White Creek of 161 miles reaching northward to Noyan junction, where, owning traffic rights, the Mellen system connects with the Quebec Southern and Canadian Pacific over a line 53 miles long to Montreal. The Grand Trunk southern extension of the Vermont Central is thus contained between two converging lines, which will allow of transfer of Boston & Maine and southern business to Montreal. The Rutland also has westward business over its Ogdensburg line and owns the Rutland Transit Company, which has a fleet of vessels from Ogdensburg, N. Y., to lake ports. While the figures are not given out officially, it is reported that the actual cost of the half interest in the Rutland had been $2,500,000.

The Rutland Railroad is one of the oldest lines in New England. It owns 397 miles of track, leases 18 miles and operates 58 miles under track agreements. The road was, until 1905, operated as an independent property, but at that time a majority of the preferred stock was taken over by the New York Central, and the road has since been operated by a staff made up chiefly of New York Central officials.

The object of the purchase, according to a statement given out by President Mellen today, is the acquirement in the interest of the Boston & Maine Railroad system of a route to Burlington and Montreal by way of the Rutland road. The stock acquired is just one half of that owned by the New York Central. The Vermont Valley Railroad Company is a corporation of Vermont, controlled by the Boston & Maine.

BIBLICAL SIGHTS IN PALESTINE.

[Ruth Bryan Owens in National Monthly.]

So plainly are the Bible pictures those of the daily life of Palestine, and so unchanging has the life continued through the centuries, that the parables are stories any Syrian might now use to illustrate his own discourse. The traveler who expects creature comforts, as an adjunct to devoutness, will be transported in spirit back through the years, and follow humbly those roads over which the divinely humble son of a Syrian carpenter led his little band of fishermen and artisans—this he may do.

The Biblical sight to which the traveler in Jaffa is first led is to the house of Peter's vision, and if the streets leading thereto were formerly in the same condition in which we found them, it is small wonder that Peter dreamed of "all manner of beasts, clean and unclean." The little house is crumbling away. It is in the care of an equally weather-beaten-looking Mohammedan. In the tiny courtyard he stood filling an old battered goat skin with water from a dilapidated cistern. Nothing marred the perfect harmony of antiquity, but the view from the roof of the house was more inspiring. Below lay the town, amid its orange groves, stretching sleepy and quaint to the blue sea's edge. To the east were the fertile plains of Sharon, and beyond, the hills, on whose rocky summits, Jerusalem lay.

JUDGE WHIPS A PRISONER.

"I got enough whippings when I was a kid, and I liked 'em so well that I'd rather take an old-fashioned beating right now than work out a fine on the roads," declared a prisoner accused of intoxication to Police Judge Menefee of Stanford, Ky. The court was transferred to an improvised whipping post, where the judge, in the role of "prosecutor-executer," applied a horsewhip to the prisoner. A big crowd cheered the judge.

OVERCROWDING THE EARTH.

[Correspondent of New York Tribune.]

I observe in the Tribune, under a Boston date line, an interview with Dr. Eliot in which he recommends that every family have six children. Will Dr. Eliot explain where he would put the fourteenth generation, since the thirteenth generation would be standing three deep on one another's shoulders crowding every foot of dry land on the globe, the number bordering on a dizzy total of quintillions? One quintillion looks like this: 1,000,000,000,000,000,000.

PERSONALS.

....Standing in the wings awaiting her cue just before the rise of the curtain at Peoria, Ill., Blanche Walsh, the well known actress, fell to the stage in a faint. Her condition is considered serious by physicians.

....Rev. Dr. George Edward Reed, president of Dickinson College at Carlisle, Pa., has notified the board of trustees that it is his intention to resign on or before the Commencement in June. His reason for retiring from the presidency, which he has held for 22 years, is that he feels that the duties of the office have become too burdensome for a man of his years.

....The recent announcement that Emperor William would attend the ceremony of unveiling the national memorial to Queen Victoria, which will take place in front of Buckingham Palace May 16, is confirmed officially. The news is heartily welcomed by Britishers, among whom His Majesty is personally popular. He will be accompanied by Empress Auguste Victoria and it is expected that the two will be the guests of King George and Queen Mary for several days after the unveiling.

....Theodore Roosevelt will have a busy day when he visits Chicago next Wednesday. He will deliver four addresses at Washington birthday celebrations, at two of which his audiences will be almost exclusively foreign-born citizens. The first speech will be delivered in the morning in the Auditorium Theatre, under the auspices of the Union League Club. At 4 o'clock he will speak in the First Regiment armory and from there will hurry across the town to Hull House, where he will address the boys of that neighborhood on "What George Washington Means to Boys; the Obligations of Future Citizens." A detail of 100 members of the Hull house division of the Boy Scouts will act as a guard of honor to the ex-president. In the evening Colonel Roosevelt will be the guest of honor at a banquet at the Union League Club.

Makes the most nutritious food and the most dainty and delicious.

HOW MANY MOONS?

[Ruth McEnery Stuart, in St. Nicholas.]

How many moons are in the night?
It's hard to tell.
When we stand close together, so,
We see the one all children know,
And in the sky and in the air
There's not another anywhere,
But when I ran around the house,
And little brother, like a mouse,
Kept watch, he said this never moved!
And so, you see, two moons are proved,
Because I'm sure as sure can be
That one moon went around with me!

Then I stayed here and let him run;
He's little an' he's full of fun—
And off he went, but gazing so,
Of course, he stumped his little toe;
And while I kissed his little scars,
He gasped: "No moon—but lots of stars!"
We tried once more, then pretty soon,
Each followed by a sep'rate moon,
But when we got back here together,
One must have slipped behind the other,
For, right above us, just as plain,
There was the same old moon again!

How many moons are in the night?
It's hard to tell.
Did this one stay, and send two others,
One after me and little brothers?
Or did it watch its chance to run
While not a soul was looking on?
I asked the moon last night, and think
I saw the old man in it wink!
But did he wink because he stays?
Or just to show his tricky ways?
How many moons are in the night?
Will some one tell?

FANCIES.

Little Niece—Auntie, do come into the garden, I want to show you to the ducks.[Punch.

Miss Peach—I hate rubbers. They draw my feet so badly.

Her Escort—Such pretty models, too.—[Boston Transcript.

"Farms are becoming valuable now."

"Yep, I'll bet it won't be long before these city folks are sorry they covered up all their good land with houses."—[Washington Star.

Father—I never smoked when I was your age. Will you be able to tell that to your son?

Willie—Not and keep my face as straight as you do!—[Puck.

Tramp—Kin I get a bite to eat here?

Woman—Yes, if you'll saw that pile of wood.

Tramp (sizing up the job)—I ain't askin' for no $10-a-plate banquet, lady.—Boston Transcript.

Mother (nervously)—Tommy, don't you think you'd better leave the pie till supper?

Tommy—Aw, I guess not, maw. I'm afraid I might not want enny supper.—[Judge.

"All the world's a stage," quoted the ready-made philosopher.

"No," replied the Wall Street man. "In the nature of things some of the world is bound to be a box office."—[Washington Star.

Kind Lady—Whose little girl are you?

Little Girl—Don't know yet; but tomorrow Billy Jones and Sammy Smith are going to fight and settle the question.—[Chicago Daily News.

"Do you get out of life all there is in it?"

"I fear not. I only belong to four bridge clubs. Two of my afternoons absolutely go to waste each week."—[Washington Herald.

Master—I'm sorry to hear your father died last night, George. I'd no idea he was seriously ill.

Jarge—Well, 'twere this way, Doctor 'e come in the marnin', an' Mother she ask 'un what she were to gi' Feyther, an' doctor 'e sez, "Gie 'un anything 'e 'ee a mind to ask for;" an' middle o' the night, Feyther 'e asks for a quart o' beer; Mother sez, "Ain't got no beer," gives 'un a glass of water—Killed 'un!—[Punch.

Wife—If ever women hold office, Mrs. Bargain Hunter says she wants to be Secretary of the Treasury.

Hub—I'll bet the first thing she'd try to do would be to issue 49-cent pieces and 98-cent bills for Monday shopping.—[Boston Transcript.

FOR A POSTOFFICE AT ISLAND PARK.

Congressman Sheffield is endeavoring to secure postal facilities for Island Park and the Hammock, in the town of Portsmouth. He asked the Postoffice Department to extend the rural delivery service there from the Portsmouth postoffice, but was told that all the rural routes in that section were as long as they could be made. Mr. Sheffield then asked that a postoffice be established at Island Park. The inspectors to whom the case was assigned have reported in favor of an office and the matter is now pending before the first assistant postmaster general. Mr. Sheffield believes that a fourth-class postoffice will eventually be established at Island Park.

ENTIRELY BALD

Her Hair Commenced to Grow After Two Weeks' Use of Newbro's Herpicide.

"Fever caused me to be entirely bald I had given up all hope of again having hair when I was advised to use Herpicide. After two weeks my hair commenced to grow. I now have the most beautiful head of hair anyone ever saw. Praise to Newbro's Herpicide."

Thus writes Mrs. Howard Bailey, of Bellevue, Mich. We can point to thousands of instances where the proper use of Herpicide has been followed by a remarkable growth of hair.

Newbro's Herpicide is the original remedy which kills the dandruff germ and stops falling hair.

One Dollar Size Bottles are sold and guaranteed by all druggists. Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Applications may be obtained at the best barbers and hair dressers.

John M. Callahan, Special Agent.

CRIMINAL NEGLECT OF SKIN AND HAIR

Cuticura soap and ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little that it is almost criminal not to use them. Think of the suffering entailed by neglected skin troubles—mental because of disfiguration—physical because of pain. Think of the pleasure of a clear skin soft white hands and good hair. These blessings are often only a matter of a little thoughtful, timely care, viz.:—warm baths with Cuticura soap, assisted when necessary by anointings with Cuticura ointment.

EXCLUSIVE ASSOCIATED PRESS SERVICE FOR NEWPORT.

TEN PAGES.

ADVANCE IN RAILROAD STOCKS.

Complaints of railroad officials that they are barely able to exist under present freight rates, and that their small earnings and the unfriendly attitude of legislative bodies and the public destroys the market for their securities, sound rather hollow in view of a recent compilation of the changes during December and January in the value of railroad stocks. The general public has noticed from time to time some evidence of improvement in the market for securities, but as the Stock Exchange business is still much less than it was a year ago it is probable that people will experience some astonishment at the showing made by this compilation published in the New York Journal of Commerce.

Thirty railroad issues increased in value, based upon the quotations, $368,000,000, an average gain of more than $12,000,000 each, the advance being nearly 10 points, which is not exactly the same as per cent, because some of the stocks are quoted at very high premiums and one point is less than one per cent. Two railroads' stocks advanced 19 points, two 17 points, one 16, one 15, one 14, one 12, two 11, three 10, and so on down. Thirty industrial stocks also advanced, but not quite so much.

Here is a substantial increase in the price of railroad securities, an advance greater than that of industrials, at a time when the railroads are demanding the right to increase their rates so that they can improve their financial position and create a good market for their securities. They are complaining that public sentiment is hostile and Congress and the legislatures are oppressive and the Interstate Commerce Commission is illiberal, and their profits are not large enough to keep up operation and improvements and make their securities attractive to investors. Yet in two months past the average advance of 30 securities has been almost 10 points. The facts do not quite support the railroad officials' tale of woe.

STREET RAILWAY REGULATION.

Street-car service is a fruitful source of trouble everywhere, and in practically every state sooner or later the matter reaches the point where legislation is sought for its regulation and improvement. This is particularly true in large cities, though to some extent it appears to be common to even smaller places. It is indeed not wholly unknown in Newport, though the troubles here are small indeed as compared with those experienced in larger communities. There are now before the legislature two bills which pertain to this subject designed for the improvement of the service on all lines within the state. One of these requires that a seat shall be furnished for every passenger or no fare can be collected, while the other provides a three-cent fare for "strap-hangers," or those who are able to find no seat when they enter a car. Both are primarily the result of conditions which obtain on the street cars which operate in Providence and lap over in their service into surrounding towns, but they are made applicable to the entire state and so are of universal interest within its borders.

That either of these bills will be passed does not seem probable, although neither has yet been given serious consideration by the committee to which they were referred. All the members of the Assembly are well aware of the conditions which have prompted these measures, for they cannot reach the State House often without experiencing them, but a strong reluctance to meddle with the affairs of the railroads is felt by the average legislator. In private the members may condemn the corporations which create or permit these conditions, but in public they are inclined to be silent upon the subject and there are many who are not looking for the return of these measures from the files where they have been laid.

Street railway travel needs some regulation beyond a doubt, but neither of these bills reaches the real difficulty. Patrons do not object so much to paying the usual price for transportation, but what they demand is better service, and that will be gained by the passage of these bills only incidentally. The people are not so much concerned about not paying a fare if they must stand as about not being obliged to stand at all, and are not looking so much for a reduction of the price for standing room as for an increase of available seats.

The fact is that the whole matter of better street railway accommodations needs serious attention and it is not likely to have that until a public service commission is created, so that the need is for such a body rather than the passage of laws which will still permit the railroad companies to pack their cars. To be sure, it is quite certain that the companies would not long run cars so full that many would ride free because of being obliged to stand, but the more direct way to secure the end desired is to create a commission, with full authority to regulate the service and to require that this shall be for the convenience and comfort of the people as well as for the interest of members of the corporations who are looking for increased dividends or the continuance of the present fat returns from their investments.

These bills are good enough so far as they go but do not go far enough, and it would be better while acting upon the matter to pass legislation which will be effective not in these particulars alone, but in regard to many other features of the present service which are not in the interest of the people but are maintained because they benefit the railroad stockholders and add materially to their incomes. Half a loaf is of course better than none, but there is no good reason in this case why the whole loaf cannot be had if the proper method to secure it is followed.

NO HABEAS CORPUS.

Americans have been taught to regard the writ of habeas corpus as the very corner-stone of our political institutions, because it enables the judiciary to review the acts of administrative officials. If a man is arrested he cannot be run into a Bastile under a lettre de cachet; the arresting official must show cause; he must produce some evidence against the person who is deprived of his liberty.

Until recently we regarded the writ of habeas corpus as the privilege of the stranger within our gates as well as of ourselves, but the people who have been making recent immigration laws have put the foreigner within our territory beyond the protection of the laws and made an outlaw of him. In several instances an immigrant whom the officials proposed to deport applied for a writ of habeas corpus, only to learn from the highest court in the land that he has no right which an American official is bound to respect, and that if he suffers a grievous injustice at the hands of the immigration officials there is no redress for him.

The latest case of this sort occurred recently before Judge Holt of New York. He dismissed an application for a writ of habeas corpus on the ground of lack of jurisdiction, though he did not hesitate to say that the proceedings of the immigration officials were a disgrace; that they were evidently determined to send the woman who had applied for the writ out of the country, whether they had any evidence against her or not.

Assuredly the number of criminal immigrants is not such as to throw the United States into a panic and lead Congress to exclude foreigners within our jurisdiction from the equal protection of the law. If some criminals or persons of bad character come in they constitute no such menace to our national welfare as to justify us in giving the immigration officials the power to deport them, unrestrained by the review of the courts.

A bitter labor fight over the provision of the naval appropriation bill repealing the eight-hour law is regarded as inevitable by the House leaders. This measure has operated so greatly to increase the cost of construction that the House committee on naval affairs has recommended its repeal. This does not refer to the eight-hour law, as enforced in the government navy yards, but to its compulsory observance on the part of the contractors who undertake the construction of naval vessels. The law has many supporters in the House, who will not allow its repeal without a determined fight, which may endanger the passage of the appropriation bill.

The Convocation of Canterbury has so far approved the proposed abridgment of the Ten Commandments as to entrust to the Dean of Westminster the task of preparing a form to be submitted for consideration in May. As a sample of the proposed changes, it is said that the dean will probably suggest that the Tenth commandment be abbreviated to read simply "Thou shalt not covet." While the shortened form may cover the matter, what right has this convocation or any other organization or body of men to change the reading?

A story comes from Albany that Sheehan has been told that he can have until March 4 to make a last desperate effort to secure enough votes to win the United States Senatorship, but after that time the break-up must come. The term of Senator Depew will expire on that day. In the event of a special session of Congress it is understood that Sheehan would be unceremoniously dropped, so that the Empire state would have full representation. He has already had plenty of opportunity to show his strength

There is small prospect that the bill providing for the direct election of United States Senators will go through the Senate at this session. The opponents of the constitutional change have been successful, by filibustering, amendments and speeches, in preventing a vote, and the time is rapidly growing short when it can be approved.

Congressman Hennet, of New York, whose resolutions for annexation with Canada were promptly squelched by the House committee on foreign relations, must appreciate Lady Macbeth's words: "If it were done, when 'tis done, then 'twere well it were done quickly."

An Indiana fancier has developed a tailless dog. With such an animal there will no longer be a question whether the dog wags the tail or the tail the dog.

Newark, N. J., has succeeded after a 14 days' campaign in raising $300,000, for a Young Men's Christian Association building fund.

The ice harvest goes on, despite the appearance of a general thaw.

THE AMERICAN ARMY.

Impressions of French Nobleman as Written During Visit to This Country in 1783.

Shortly after the surrender of Cornwallis at Yorktown, toward the close of the American revolution, the Comte de Segur and the Prince de Broglie, two young French noblemen, visited America. In their letters home they gave an account of what they saw, relating thus in an intimate manner, their adventures in the United States, their impressions of the country, of the people, of the army, of its general in chief, Washington, and of the society women whom they met, especially those of Philadelphia and Newport. These letters, which for a century and a quarter mellowed in the family archives, the present Marquis de Segur, member of the French Academy, loaned to Mrs. John Van Vorst, who has translated and edited them for Lippincott's Magazine. Few, if any, more interesting historical documents have appeared in print. Concerning the American army and its chief, the Comte de Segur gives his impressions:

"I had expected (he writes) to find the soldiers ignorant, badly kept, the officers lacking in the polish of our older civilization. I recollected the early moments of their revolution, when farmhands and workmen who had never handled a gun precipitated themselves, pellmell, in a fine name of their country, to fight the British ranks, presenting to their astonished eyes a mass of hayseeds who bore no other insignia nor sign of a uniform than a cap upon which was written the word 'Liberty.' You can imagine then, how surprised I was to find a disciplined army, with every appearance of order, reason, knowledge, and experience. The generals, the aides-de-camp, and the other officers showed in their bearing and in their speech nobility, self-respect, and that natural kindliness which seems to me as much above politeness as a sweet expression is better than a forced smile of affected good humor.

"One of my most ardden desires was to see the hero of America, General Washington. The Comte de Rochambeau had the goodness to present me to him. Too often reality falls far below what we have imagined to ourselves, and our admiration diminishes as we perceive the object which had excited it. But the true General Washington was in absolute harmony with the idea I had formed of him. His appearance revealed him as he was; simple, great, dignified, calm, good, strong; these traits were written in his face and in his bearing as being the qualities of his character. His figure was noble, erect; the expression of his features gentle, amiable; his smile agreeable; his manner simple, without familiarity. He has none of the pomp of a general in one of our monarchies; everything proclaims him to be the hero of a republic. He inspires rather than commands respect, and in the eyes of all who surround him one can see true affection, absolute confidence in the chief upon whom they seemed to place all their reliance. General Washington received me with kindness; he spoke to me of the gratitude which his country would preserve always toward the king of France for his generous assistance. He expressed the highest praise for General Rochambeau, he commended the bravery and discipline in our army, and he pronounced a few very flattering words about my father, his long service in the army, his numerous wounds, 'worthy ornaments,' said he, 'for a minister of war.'"

CHINA'S CRISIS.

[Boston Herald.]

The summary action toward China which Russia evidently is planning to take comes at a time when, by reason of her internal difficulties, China is peculiarly vulnerable and defenceless, and most susceptible to pressure. Washington reports tell of the laudable hope there that Russia, in view of famine and plague, joined with other domestic difficulties which the Pekin authorities face, would "generously defer pressing her claims at this time." This hope is creditable to the feelings of those persons who cherish it, but it is not flattering to their knowledge of Russia's ways.

China, no doubt, will appeal to the powers, and at once find who her real and who her pseudo friends are. China no doubt would look with greatest expectation to this country, to at least insist that she be treated fairly, and that her cause be heard before an impartial tribunal like the court at The Hague. So far, this country could go with propriety, were it found on investigation that the matter at issue was one coming legitimately before that court, and justifying our friendly offices in China's behalf. Obviously we have no right to interfere. If investigation should show that China has failed to keep her treaty obligations, or that no peril to the "open door" policy is involved.

China will do wisely if she lays before the Western world her side of the case in all its fulness, with its charges that Russia also has been unmindful of treaty obligations, and that her neighbor on the north, by various hostile expeditions in the Mongolian region has been guilty of acts "incompatible with the integrity of the Chinese empire." This much she owes to herself and to the world-public, if she counts on making a case that will command the attention of any friendly Powers.

AROUND RHODE ISLAND.

Grand Exalted Ruler Herrmann Guest of Providence Lodge of Elks.

Threatening Fire in Two Westminster Street Buildings—Bristol Caucus Nominations.

Grand Exalted Ruler Herrmann was Friday evening the special guest of Providence Lodge, No. 14, Benevolent and Protective Order of Elks, on the occasion of its annual banquet, his visit being the second of the sort in the history of the local lodge. Mr. Herrmann came from New Haven in the afternoon, accompanied by the members of the reception committee, headed by Past Exalted Ruler William F. Maines and District Deputy Charles E. Shean. He was escorted to the Crown Hotel, where, after a brief reception, he was taken to the Elks Hall on Washington street, where he met members of the order. The official patry then went to the Eloise, where the grand ruler received in the parlors until 8:30, when the signal was given to adjourn to the banquet hall. The hall was decorated with stands of American colors, arranged with the colors of the order harmoniously contrasting with the red, white and blue. The front of the balcony was draped with festoons of bunting in the centre of which, directly facing the toastmaster, was an immense head of the American elk above whose widespreading antlers was an old-fashioned clock and below a life-sized portrait of the honored guest of the occasion. After commending the Elks for their determination to establish a home for the order in Providence, Grand Exalted Ruler August Herrmann favored the building of a new national Elks' home. He said the present administration favors such a step, as the buildings at present occupied as a national home are beyond economical repair. He scored the propensity shown at parades in connection with some of the recent annual conventions to introduce burlesque features as deteriorating the standard of the organization through misinterpretation by the public at large.

Fire which for a while threatened to destroy two Westminster Street blocks in Providence broke out in the four-story building owned by the D. C. Wood heirs late Friday evening. It spread to the Tillinghast block at the corner of Westminster and Mathewson streets and caused damage estimated at $25,000. When the blaze spread from the hairdressing establishment of Mrs. L. M. Merrill on the top floor of the Wood building to the rooms occupied by M. A. & A. E. Dowling, dressmakers, on the fourth floor of the Tillinghast block, the gas pipes burst, discharging large volumes of gas. Cornelius Garvey of Hook and Ladder Company No. 5, who happened to be in the rooms at the time, was overcome by the fumes and was rescued by Captain Sullivan of the same company, who carried him down stairs to the street. The man was attended by an ambulance surgeon from the Rhode Island Hospital and by Fire Commissioner William Andrews, who remained with him until he had entirely recovered. Garvey was able to return to the fire station with his comrades.

The Bristol Republicans nominated candidates for town offices to be put before the voters at the annual town elections March 8, at a caucus Friday evening. About 100 were present and voted according to districts, using two ballot boxes. The ticket chosen includes several nominations made by the Democrats and the Citizens' meetings. Frank Paull is on three tickets as a member of the town council, and the nominations for town moderator, town clerk, town treasurer and assessor of taxes are the same. The nominations were unopposed. The ticket was placed in nomination by Wendell R. Davis, chairman of the Republican town committee. The Democrats Thursday nominated candidates for town offices. The ticket was named without opposition and with one exception is identical with that approved at a caucus of the Citizens' party Wednesday. The only difference is the nomination of Rev. Thomas H. Gillan, pastor of St. Mary's Catholic Church, for the school committee place for which James T. Toberston was endorsed by the Citizens' faction.

The street car situation in Providence was discussed by the special committee on railroad franchise and Bion J. Arnold, the Chicago transportation expert, Friday. Mr. Arnold gave a rough outline of his probable procedure in the work and thought he would be able to promise something definite within a period of 30 days. He informed the committee that many of the problems which had confronted the city of Chicago are not to be found in Providence, but that there are problems in Providence which are peculiar to that city. Mr. Arnold's assistant, J. R. Bibbins, has been looking over the ground since Sunday and has observed the conditions at all the points of congestion carefully. Dorrance street is considered as a special problem and the College Hill transportation is another question held by the investigators as of much interest. In the afternoon Mr. Arnold conferred with the representatives of the New Haven road and the Rhode Island Company.

Arthur F. Garland of Salem, N. H., arrived in Providence Friday after an involuntary absence from New England since last August, when he was shanghaied in Boston on board a Norwegian ship bound for Buenos Ayres. He traveled, by land and sea, more than 20,000 miles since he left Boston, in an effort to reach home again. He came ashore breakfastless and "broke," but game for a little walk of 44 miles to Boston to lay his case before the United States shipping commissioner there, if no one in Providence could be induced to part with 90 cents, the price of carfare to the Hub. As his story was borne out by his shipping papers and discharges, he did not find great difficulty in finding a man in a water front office who was charitably inclined, and was soon at the Union station buying his ticket. Garland, who is 26, had a wife and child and a home in Milford, N. H., when he went away. He received a letter while in New York from a friend of his wife's, saying the latter had taken the child and gone for parts unknown. Garland said he would make no effort to locate the missing family, his principal grievance being against the shipping agent who, he says, shanghaied him, and whom he intends to see punished if possible.

Miss Jane Addams of Hull House, Chicago, at the invitation of Professor Henry I. Fowler, who has charge of the chapel services during the absence of Dean King, spoke at the chapel of the Woman's College in Providence Friday upon her experiences as the head of the Hull House in connection with young people of foreign nations. In her remarks she urged friendship with people of the poorer class. Special music was furnished by the chapel choir, and at the close of the service a reception was held in honor of Miss Addams in the library of Pembroke Hall. Miss Sarah E. Doyle, Miss Addams and Professor Fowler received.

AN INDEFENSIBLE BILL.

[New York Tribune.]

The Senate committee on pensions has reported the Sulloway pension bill, with an immaterial amendment, thus aiding the progress of a measure which ought not to be passed at this or any other session. The amendment reduces the maximum monthly rate to be paid to veterans 75 years old or more from $36 to $30, and would thus slightly decrease the extra annual charge imposed by the bill, which would, however, still exceed $40,000,000. Such an increase is unjustifiable in view of the sum already devoted to pensions, which for 1909-10 was $160,909,000 and for 1910-'11 $155,755,000, and which will be about $163,000,000 for 1911-'12. The Sulloway bill, if it becomes a law, will necessitate new taxation, but Congress, instead of providing means to meet a new annual obligation of more than $40,000,000, seems disposed to vote the money away first and consider plans for raising it afterward, or not at all. An addition of $40,000,000 to the Treasury's annual outlay would more than wipe out the savings made by the Taft administration through many praiseworthy economies. The President has earnestly labored to check the expansion of federal expenditure, and has succeeded in holding the appropriations of this Congress within reasonable bounds. But all that effort would be nullified if the pension account should be suddenly enlarged from $153,000,000 to nearly $200,000,000.

The sum carried by the Sulloway bill is excessive and beyond the nation's means at present. Moreover, the theory on which the measure is constructed is faulty. If any increase in pension allowances is to be made, its benefits should go to the worthiest—the men who served longest and were subjected to the greatest dangers and privations. Those who enlisted for a year or longer and those who were made prisoners should be put in a different class from the 90-day men, many of whom never saw the front and endured no hardships whatsoever. It would be more reasonable to continue the present allowances on the 90-day basis and make additional allowances for special classes of pensioners, according to the character of their service. The men who really fought and suffered do not want to be lumped in one class with the three months' levies called out for an emergency and serving only in the second line.

The country is entirely willing to reward the veterans in accordance with their deserts, but it is not willing to sanction any more dragnet and omnibus pension legislation.

PHRASES WHICH CARRY BITTERNESS.

[Kansas City Star.]

The war of the Revolution was fought 130 years ago, but the healing of the wounds it left is low. Professor Albert Bushnell Hart of Harvard University is justified in urging that school histories be purged of the old bitterness with which that great civil war of the English speaking peoples was attended. It is almost as difficult for nations as for individuals to forget ancient feuds. They are re-inforced by national antipathies. Strangers are not cordially received even in a modern church without urgent proddings from the pastor. They are looked on with much suspicion everywhere, and this is increased where they live under a different government, have different customs and speak a different language.

Very early in their history the Jews became convinced that they were the chosen people, and they held aloof from the Gentile world. The Greeks referred contemptuously to the people whose languages sounded like "barbar" as barbarians. The barbarians were just as contemptuous of the "Greeks bearing gifts." The English speak of a defaulter as "taking French leave," and French peasant women still frighten their children with threats that the English will get 'em ——threats that have come down from the wars of the middle ages. French historians have always written as if France were the real centre of civilization and as if the people of other nations lived in outer darkness, while only recently appeared a bulky set of volumes from an English historian with the modest title, "How England Saved Europe"

OLD CITY HALL NOVELTY SHOP.

AND WEEKLY NEWS,
Is especially adapted for mailing.

THE WEATHER.

BOSTON, Feb. 18.—Forecast for Boston and Vicinity—Unsettled, probably rain or snow tonight or Sunday; colder tonight, moderate to brisk northerly to easterly winds.

WEATHER CONDITIONS.

The pressure has fallen considerably in all Atlantic and Gulf coast states. The Lake depression moved northeastward, with increasing intensity. Light to moderate amounts of rain or snow were produced during yesterday and last night in the lower Lake region and New England. Heavy precipitation has occurred in Kansas, Oklahoma and central Texas, much of that in Kansas being snow. Some precipitation has also occurred on the north Pacific slope. There is generally fair weather in other districts. The high pressure area that was off the Middle Atlantic coast has diminished and passed eastward. A marked area of high pressure appears in the British northwest. The southwestern depressions show little energy. The high temperatures of yesterday noted in the lower Lake region and Ohio valley have fallen to nearer the normal, while in Atlantic coast districts and the northeast warmer weather prevails. The high pressure area in the northwest has brought cold weather to Montana and the Dakotas. In New York at 8 a. m. it was 42, Washington 54, Jacksonville 52, St. Louis 38, Chicago 36, Kansas City 32, Des Moines 32, St. Paul 16, Denver 24, San Francisco 44, and Portland, Oregon 44.

SULLIVAN—At Soldiers' Home, Togus, Me., 14th inst., Mathew Sullivan, formerly of Providence.

In Memory of William G. Roelker.

At a regular quarterly meeting of the Board of Directors of the Newport Trust Company, held February 17, 1911, the following minute was adopted:

William G. Roelker was born in Cincinnati, Ohio, June 12, 1854. He died in New York City January 24, 1911. He was generously educated in this country and abroad having been a student in the Academy of Geneva and the University of Berlin. He was graduated from the Harvard Law School in 1877 with the degree of L. L. B. and practiced law with an office in Providence. He early interested himself in public affairs, and was a member of the Rhode Island House of Representatives in 1877-8, and of the State Senate from 1895 to 1902. He was a delegate to several Republican National Conventions, and in 1892 was a presidential elector. He was a member of several business and social organizations and of the Society of the Cincinnati.

Mr. Roelker had large abilities as a financier and business manager, and he was very successful in the control of numerous large affairs. With a few associates he had much to do with various transportation interests in the vicinity of Providence, including the re-organization of the street railway service of that city and its suburbs.

Mr. Roelker was an incorporator of the Newport Trust Company, and a member of its Board of Directors from the formation of the company in 1901 until his death. During a considerable number of years he made Newport his summer home.

We wish to record this brief estimate of Mr. Roelker's very active life, and our appreciation of his unusual ability as a financier. We record also our regret that this able busy life is ended, and we express our sympathy to the family.

FIRST DEFEAT AT HOME.

Rogers Plays Up-Hill Game Against Durfee Textile, But Fails to Win.

Naval Reserve Tigers Beat Providence Red Sox and Chiclets the Independents.

The Rogers basket ball team suffered its first defeat of the year on its own floor, when it lined up against the fast Durfee Textile School Friday evening. It played a hard uphill game against a team which had a decided advantage in weight and experience, and lost by a score of 30-23. The game was lost in the first half, on account of Rogers inability to cage the ball. Many times it was purely hard luck that the ball did not go into the basket, but there were other occasions when, if a little time had been taken in shooting, the shots might have counted. In spite of this, however, the high school boys played well, and the way they covered their big opponents was a revelation to the spectators.

The home team was wild in passing and showed in strong contrast with the brilliant work of the visitors in this respect. The latter were too strong in their team work and shooting, and Rogers did well to keep the score down. The game was rough, as is always the case when a heavy team lines up against a light one. However, the referee kept the play well in hand, and prevented the roughness from going too far.

The first half went to the visitors, 13-8. Both teams started with rush, but in the rush Rogers lost its team work somewhere and the players bunched up. Time after time the visitors scored after cleverly executed passing, and there was no one to stop them. On the other hand, when Rogers advanced the ball to their end of the ball, either hard luck or poor shooting kept it from going into the basket. Three baskets and two fouls constituted their scoring, while the visitors counted nine times.

The game may be said to have been lost in the first half, for in the last period Rogers out-scored their opponents by four points. Cheered on by the spectators, the Newporters kept on the jump all the time. Rogers gave the finest exhibition of blocking seen on the floor this year. Their shooting was better than in the first half, and in the last five minutes they took such a spurt that it looked as if they might win after all, but the visitors had too much a lead for that. The nearest Rogers came to their opponents was five points. Five of Rogers 15 points were scored on fouls. The period ended, 16-11.

The Durfee Textile team is the same which played here last year, and was defeated by Rogers 16-14. Their line-up was exactly the same. Friday evening Schofield and Farrel played the best game. Schofield was a fast forward, while Farrel was noticeable for his blocking. Sutcliffe in the last half was in the limelight for his spectacular shooting.

Knox was the star for Rogers and his playing was brilliant. He had a good man against him, but showed himself capable of great floor work. Oxx, coming into the game in the second half, strengthened the team considerably, his foul shooting being a feature. Freeman played an excellent game in the back field, and did much towards keeping the ball away from the visitors' basket. The summary:

Rogers.	Durfee Textile
Knox, r. f.,	l. b., Donovan
Arnold, Oxx, l. f.,	r. b., Farrel
Underwood, c.,	c., Sutcliffe
Anthony, Martin, r. b.,	l. f., Schofield
Freeman, l. b.,	r. f., Sheldon

Score—Durfee Textile 30, Rogers 23. Baskets—Knox 4, Underwood 3, Donovan 3, Farrel 3, Sutcliffe 3, Schofield 2, Sheldon 3, Oxx. Fouls—Oxx 5. Anthony 2, Sheldon 2. Referee—Walker. Scorer—McManus. Timers—Harrington, Reynolds. Time—Two 20-minute halves.

Two games were played at the state armory, the Naval Reserve team being successful in each, the Tigers beating the Red Sox of Providence, 20 to 13, and the Chiclets defeating the Independents of this city, 24 to 20. The Tigers presented a new player, Easton of the Chiclets, in the second half, playing a strong game both against the Red Sox and on the Chiclets against the Independents.

The first game was between the Tigers and the Red Sox. The latter were the heavier team, but the Tigers made up in quickness for their lack of weight. Crowell scored the first points, a field goal, for the visitors, but West with a foul and a field goal soon secured the lead for the Tigers, which they held to the end. At the conclusion of the first half the score was 13 to 8 in favor of Newport. In the second Easton took Rudolph's place and livened the play. Each team in this half scored the same number of points. The line-up was as follows:

Tigers.	Red Sox.
West, r. f.,	l. b., Atkinson
Clancy, l. f.,	r. b., Head
Ring, c.,	c., Corey
Voss, r. b.,	l. f., Crowell
Rudolph, Easton, l. b.,	r. f., Cameron

Score—Tigers 20, Red Sox, 13. Goals from floor—West 5, Clancy, Ring, Voss, Easton; Head, Crowell 3, Cameron. Goals from fouls—West 2; Head 2. Crowell. Referee—Harvey. Scorer—Leary. Timer—Walsh.

The game between the Chiclets and Independents was fast and exciting. The Independents played the best in the first half, having a lead of 10 to 6 at the end, but in the second were unable to hold out against the fast work of the Chiclets, who scored 18 points to their opponents' 10, giving them a lead of four points on the two games. The line-up follows:

Chiclets.	Independents.
Jones, r. f.,	l. b., Miller
Easton, l. f.,	r. b., Allen
Cox, c.,	c., Nolan
Sullivan, r. b.,	l. f., Shea
Fitzpatrick, l. b.,	r. f., Kane

Goals from floor—Chiclets 24, Independents 20. Goals from fouls—James 4, Easton 3, Cox 2, Wetherell, Fitzpatrick, 2; Miller 2, Allen, Nolan, 4, Shea, Kane 2. Referee—Leary. Timer—Walsh. Scorer—Williams.

The Calahad Pages won from the Algonkins, the score being 8 to 0.

The Algonkins, which are to play St. Joseph's five, are one of the strong teams in the City league, judging by the way they defeated the Tabs so easily in their own hall Thursday evening by the score of 30-13. This shows that the Algonkins are traveling at a fast pace. Unless those who played in this game and scored nine baskets, will again be in the line up and probably against Kenny, who is considered one of the best forwards in the league. The Algonkin's men are in good condition after the hard game with the Tabs and can be depended upon to give a good account of themselves. Kenny and Meehan, who did so well in holding down the fast Tabs forwards, will be in their regular places. If the Algonkins win this game they will be tied with the Tabs for second place.

LIKE THE GRAND ARMY SPEAKERS.

To the Editor of The Daily News:

That there was great disappointment in some of the lower grades on Flag day at the absence of Grand Army men, witness:

"Did you sing 'Marching Through Georgia' this year?"

"They didn't give us any Grand Army this year, but we wish they would."

Small children like to hear talk by the Grand Army men rather than by professional orators. Make all else secondary to the Grand Army men, please.

Parent.

Newport, Feb. 18, 1911.

JAMESTOWN.

[Regular correspondence of The News.]

The first round in the fourth series of whists at the Boys' Club was played Thursday evening, team No. 4 winning. The drawing for partners and teams resulted as follows:

Team No. 1—George Chandler and John Robinson, L. W. Anthony and Glass Littlefield; team No. 2—J. Schluth and W. H. Brooks, W. F. Caswell and W. A. Clarke; team No. 3—C. Wright and F. Gamacho, John Brooks and P. Blackwell; team No. 4—H. S. Stubbs and Everett Tefft, Alonzo Tefft and Samuel Smith.

Friday night's rain and the thaw today put a stop to any attempt to commence ice cutting. Unless a cold snap comes soon the ponds will again be broken up.

Steps are being taken for the calling of a special town meeting, to act on the ferry question, should the amendment to the charter before the legislature pass the lower house next week.

Mrs. Knudsen and son who have been guests of Mr. and Mrs. J. A. Carr have returned to New Haven.

The town's team is covering the sidewalks with sand to make them less slippery.

Miss M. M. Hopkins of Providence is visiting on the island.

C. E. Weeden has rented for Mrs. N. M. Southwick her cottage on Bryer avenue to Mantle Fielding of Philadelphia for the season of 1911. This will make Mr. Fellding's fourth season at Jamestown, during three of which he has occupied the same cottage.

LOCAL BRIEFS.

—Officer Esleeck is on sick leave.

—Mr. Max Agassiz is here to spend Sunday.

—Mr. and Mrs. Anthony J. Drexel have sailed for Europe.

—Mrs. W. J. Wollin has gone to New York to visit her son.

—Two nights this week the local hotels were obliged to refuse applicants.

—Mr. and Mrs. Edward A. Brown have been spending a few days in Boston.

—General and Mrs. Frederick M. Sackett sailed for Europe today on steamship Carminia.

—Mrs. Alexander S. Clarke and Mrs. David King sailed for Europe today on steamship Adriatic.

—Miss Marion Dow who has been at "Dudley Place" for several days, returned to Boston today.

—Mrs. Louise Green of this city, who has been in a private hospital in Hartford, is slowly improving.

—Mr. and Mrs. Moriarity, who have been visiting Colonel and Mrs. Sheffield, have gone to Boston.

—Mr. Edward A. Martin, assistant to Ticket Agent Greene, is expected home Sunday from his vacation, which included visits to New York and Washington.

—Herbert L. Dyer has rented for P. H. Horgan the store at 146 Bellevue avenue, corner of DeBlois street, to Carl J. Swenson.

—Rev. C. J. Wigren, after several weeks of illness, is so far recovered as to be able to resume his work as pastor of the Swedish Methodist Episcopal Church.

—Late arrivals at the Perry House include M. A. Freeman, D. E. Condit, New York; John Hines, George J. Cottrell, Boston; C. H. Perkins, Newark; Frank Johnson, A. T. Atcheson, Geofie Huffman, Philadelphia.

—Mr. and Mrs. Charles A. Loder of Arcola, Pa., Mr. and Mrs. C. A. Mathews and P. H. Seaton of Providence and D. E. Moore and M. F. Lees of Boston are registered at the United States Hotel.

—The leevator for the Army and Navy Young Men's Christian Association building has arrived from the works of the Otis Elevator Company. As it will be two months or more before it can be placed in the building, it will be stored.

—It looks rather out of season to see sea bass in the fish markets and sheepshead, but as they came from Florida the only wonder is that they look so fresh. There are also Spanish mackerel, and handsome cod are brought in by the local fisherman.

—Mrs. L. D. Davis, formerly of this city and now making her home with her daughter, Mrs. F. P. Powers, in Philadelphia, observed her eighty-fifth birthday today and was in receipt of many tokens of remembrance.

—The police this morning had two old-timers in the lolls, the charge being plain drunk. One was fined $5 and costs and the other $2 and costs. The five-dollar man had just five in his possession, but that was two-sixty short, and so both went to jail.

—Rev. Manuel J. Barros of St. Anthony's Church, Portsmouth, was guest of Mr. Jesse Almeida in this city Friday. Father Barrios was one of the Dominican order, which was banished from Lisbon, Portugal, last October, when the Republicans overthrow the Monarchy. This was Father Barrio's first visit to Newport, he having recently arrived at Portsmouth.

—It rained a little this morning, just to show that all the moisture is not in the shape of mud. Then it tried to clear away and the sun came far enough through the clouds to show itself. The wind shifted to the northwest and it looks like clear weather. That is how it looks, but the weather is subject to change without notice, and predictions are for rain or snow.

—While tarring lobster pots on a lot of open space between Ferry and Bowen's wharves this afternoon, the tar boiled over and immediately a huge cloud of black smoke rose over the scene. The men at work covered the kettle and waited for the tar to burn out. A crowd gathered, but those who thought of sending in an alarm also thought to determine upon the necessity first and so the firemen were not called.

—The body of Agnes, wife of Alexander S. Holl, arrived here Friday from Portsmouth, N. H., and the funeral took place this morning from St. Mary's Church, where Father Meenan celebrated the mass of requiem. The interment was in the family lot in St. Mary's cemetery. The deceased was the only daughter of Patrick J. and the late Margaret Hayes, a native of this city and well known to a large circle of friends.

AT THE END OF THE THIRD HALF.

Survey of the Games Played in the City League and the Standing of the Teams.

This week the City Basket Ball League passed the halfway mark in the struggle for the championship. The first half consisted in each team playing one game with each other, on its home floor. As there are six teams, this meant a total of 30 games, five on each floor.

At the start, before a game had been played, three teams loomed up strong—the Tigers, Galahads and Algonkins. They had experience and should have done the work. The Tigers especially, after their practice with the Naval Reserves, should have beaten every team in the league. But "should have" and "did" are two two different things. The Tigers were lazy, played on their own floor and loafed elsewhere, as a rule, while the Algonkins and Galahads went into the contest without proper training. In basket ball the team and the player must work, and the teams which did the work, from whistle to whistle, showed up.

The Tabs were the first to show this. They went into the contest with the idea that it was to be a struggle and not a picnic. It was no picnic, and they were not disappointed when they found plenty of hard work in every game. They were prepared for hard work and forged to the front and held it, though tied by St. Joseph's at the end of the first half.

The St. Joseph's team was another exponent of the same rule. They played hard. They did not show the versatility of the Tabs, but they did what was as good; they defeated the Tabs on their own floor. This compensated for the fact that they did not win as many games on opposing floors.

This winning at home and away from home was largely a matter of habit. Owing to the differences in the halls, each team had a distinct advantage on its own floor and a visiting team needed to play considerably better to win away from home. The Tabs won three of their visiting games, losing only to the Tigers and St. Joseph's. They, however, lost at home, one game, to the St. Joseph's. The Tigers and St. Joseph's won every game at home, but the Tigers won only once away, and that was at the Y. M. C. A. They made a great try to win at the St. Joseph's hall and showed in that game that they could play. A little extra effort at Algonkin or Galahad would have given them a victory.

Algonkin won four at home and two away, Galahad three at home and one away. The Y. M. C. A. team seemed to have a combination of hard luck and poor support all the time and had a clean record—won none at home and tied this record away. It played two overtime games away from home, which showed the boys were playing. The standing of the teams at the end of the first half was as follows:

	Won	Lost	Per cent
Tabs,	7	3	700
St. Joseph's,	7	3	700
Algonkin,	6	4	600
Tigers,	6	4	600
Galahad,	4	6	400
Y. M. C. A.,	0	10	000

The total scores made by each team at home and away give some indication of the playing, though not an absolute index. The scores of each team, followed by that of its opponents, at home and away, were as follows:

	At Home	Away
Tabs,	179 to 85	87 to 86
St. Joseph's,	147 to 80	119 to 133
Algonkin,	124 to 116	107 to 142
Tigers,	166 to 82	102 to 122
Galahad,	126 to 126	110 to 152
Y. M. C. A.,	94 to 141	105 to 196

It will be noted that the Tabs scored more points away than did the home team played against. The St. Joseph's held the visiting teams down to the lowest scores, though the Tigers and Tabs were close and each scored more points than did St. Joseph's.

In the second half, which had begun before the first was ended and will run until March 31, according to the schedule, it seems likely that all the teams will play harder against the two leaders, the Tabs and St. Joseph's, than against any others.

MRS. WHITNEY WARREN'S LOST NECKLACE

Mrs. Whitney Warren upon a recent visit to the Paris Decarative Arts Museum was surprised to see in a collection loaned the museum by Mme. de Perdussin an eighteenth-century necklace of brilliants valued at $600, which she herself had lost. Mrs. Warren brought suit for the necklace and the court ordered Mme. de Perdussin to return it. Mme. Perdussin bought the trinket from a dealer who had acquired it from a hotel keeper, who had taken it from a woman in payment of a bill for $76.

REAL ESTATE SALES.

The Gibbs Land Company has sold to Virginia P. Gibbs the lot bounded south, 100 feet, on Old Beach road; west, 200 feet, on Eustis avenue; north, 100 feet, on land of Hope Ives Powel, and east, 200 feet, on land of the Newport Water Works.

Fred T., Rodolph A., Eleazer T., Horace and Adelaide M. Maitland have quitclaimed to Wallace C. Maitland the estate bounded north on Gould street, east on land of Edward O. Riggs, south on land of William M. Smith and west on land of Sarah E. Hazard.

Marco A. Russo has sold to Pasquale Russo lot No. 3 of the Russo plot, bounded southeast, 38 feet, on Russo court; southwest, 74 feet, and northeast, 73 feet, on other land of the grantor, and northwest, 38 feet, on land of estate of Edward A. Hassard.

John Bernier and wife have sold to Sarah A., wife of W. D. Sayer, the lot bounded southeast on Warner street, southwest and southeast on land of Ernest Weston, southwest on land of Cordelia E. Roscoe and Rebecca M. Lawton, northwest on Dodge court and land of W. R. Dudge, and northeast on land of Alexander Nicol.

Cynthia E. Denham has sold to Elizabeth D., wife of Howard G. Ward the estate bounded west, 50 feet, on Spring street; south, 50 feet, on land of George C. Barker, deceased; west, 50 feet, on land of H. E. Ward; north, 12 feet, and west, 4 feet, on land of Felix Peckham, and north, 50 feet, on land of George Popple.

SALE OF FIRE DEPARTMENT HORSES.

It looked like the opening of spring this morning on Washington square, when Auctioneer F. W. Greene offered for sale the two horses of the fire department which are no longer suited to that but are good for other work. The attendance was large and the bidding spirited, and the prices realized were considered good. The big horse, one of the truck team, brought $176, and the smaller one from the Twos' reel, $127, to total of $303. The prices are high, but the horses are good and this is the season when horses which can work are in demand. There was also another horse sold, and carriages, incubators and other material which went at prices which showed that some people knew spring is near at hand.

Buy Rubbers Today At Downing's.

Here you will find a fresh complete stock of all sizes, at little prices, to fit all styles of shoes for men, women and children.

B. F. DOWNING, 3d, 191 Thames St.

ICE HARVEST GOES ON.

Still Cutting, at Both the Lily and Bull Ponds, Despite the Thawing Weather.

Some may think, from the way things are melting in town, that the ice cutters have quit work, but such is not the case; they are working right along. At the Lily pond the Arctic company's men stopped early Friday afternoon because the ice was growing soft, but it hardened as soon as night came on, forming on sidewalks and elsewhere despite the fact that the thermometer registered 37. They are at it again this morning.

The dandependent company is still cutting on Bull's pond, but today only about half as many teams are cutting and at times it looks pretty slow at the house on Sherman's wharf. Mr. H. A. Brown, at "Brookfield Farm," has a gang of cutters at work and by tonight expects to have his houses filled with 1,250 tons of ice which will go far to keep him going, in town and out.

The conditions for harvesting are not ideal, but there is ice and it is a case of cutting it while it is cuttable. It cannot be harvested after it has thawed.

RELEASED FROM ICE PACK.

Steamer Bruce Freed from Her Perilous Position Off Low Point.

NORTH SYDNEY, C. B., Feb. 18.—Steamer Bruce, which has been jammed in an ice pack one mile off Low Point, since last Saturday, was released from her perilous position late yesterday, by a westerly wind. The boat under her own steam reached Louisburg harbor last night. During the past week the Bruce has been continually threatened destruction by the grinding ice pack. The ice piled up to the rail of the steamer and so menaced the safety of the large passenger list that over 60 were carried over the ice and cared for at Low Point light. Contrary to instructions from the owners the captain and crew remained on board the steamer and when the ice began to loosen yesterday the boat had little difficulty in gaining the open water. Later an inspection of the boat's hull showed only a few slight dents from the continual pounding of the ice cakes.

FOR STATE OF WASHINGTON.

Russian Woman's Suffrage League of St. Petersburg Sends a Memorial.

OLYMPIA, Wash., Feb. 18.—A memorial from the council of the Russian Women Suffrage League of St. Petersburg congratulating the state of Washington on the adoption of woman suffrage, was received by the legislature yesterday. The memorial reads:

"To the congress of the state of Washington: Honorable gentlemen: Please accept our greetings and kindly transmit our warmest congratulations to all the women of your state on the events of their obtaining rights of suffrage and citizenship.

"On behalf of the Russian Woman's Suffrage League we send to your American sisters a message of love and with this message goes the hope of successful work for the welfare of their state and their country. May the example of your state be a strong inspiration for the other states of your great union and may the Lord bless your citizens for the justice they have done to their sisters."

FOR FIRE MARSHAL'S FAMILY.

Philadelphia and Chicago Americans to Play Benefit Game in Chicago.

CHICAGO, Feb. 18.—The Philadelphia Americans and the Chicago Americans will play here May 26 for the benefit of the family of the late Fire Marshal James Horan, who lost his life in the stockyards' fire, two months ago. The dead fireman was a baseball fan and the promoters of the benefit expect to make it one of the biggest events of the kind ever attempted. The gross receipts are to go to the family.

5,000 OPERATIVES IDLE.

Cotton Mills in Waltham and East Watertown Shut Down.

WALTHAM, Mass., Feb. 18.—Upwards of 5,000 mill operatives in Waltham and Watertown are temporarily idle. The Hood Rubber Mills in East Watertown were shut down today until February 27, because of a lack of orders. The company employs 3,500 operatives. At the Boton Cotton Mills here 1,000 hands are idle. The company officials state that the operatives were laid off because of a strike of seven men, for an advance in wages.

EXCLUSIVE ASSOCIATED PRESS SERVICE FOR NEWPORT.

TEN PAGES.

ADVANCE IN RAILROAD STOCKS.

Complaints of railroad officials that they are barely able to exist under present freight rates, and that their small earnings and the unfriendly attitude of legislative bodies and the public destroys the market for their securities, sound rather hollow in view of a recent compilation of the changes during December and January in the value of railroad stocks. The general public has noticed from time to time some evidence of improvement in the market for securities, but as the Stock Exchange business is still much less than it was a year ago it is probable that people will experience some astonishment at the showing made by this compilation published in the New York Journal of Commerce.

Thirty railroad issues increased in value, based upon the quotations, $369,000,000, an average gain of more than $12,000,000 each, the advance being nearly 10 points, which is not exactly the same as per cent, because some of the stocks are quoted at very high premiums and one point is less than one per cent. Two railroads' stocks advanced 19 points, two 17 points, one 16, one 15, one 14, one 12, two 11, three 10, and so on down. Thirty industrial stocks also advanced, but not quite so much.

Here is a substantial increase in the price of railroad securities, an advance greater than that of industrials, at a time when the railroads are demanding the right to increase their rates so that they can improve their financial position and create a good market for their securities. They are complaining that public sentiment is hostile and Congress and the legislatures are oppressive and the Interstate Commerce Commission is illiberal, and their profits are not large enough to keep up operation and improvements and make their securities attractive to investors. Yet in two months past the average advance of 30 securities has been almost 10 points. The facts do not quite support the railroad officials' tale of woe.

STREET RAILWAY REGULATION.

Street-car service is a fruitful source of trouble everywhere, and in practically every state sooner or later the matter reaches the point where legislation is sought for its regulation and improvement. This is particularly true in large cities, though to some extent it appears to be common to even smaller places. It is indeed not wholly unknown in Newport, though the troubles here are small indeed as compared with those experienced in larger communities. There are now before the legislature two bills which pertain to this subject designed for the improvement of the service on all lines within the state, one of these requires that a seat shall be furnished for every passenger or no fare can be collected, while the other provides a three-cent fare for "strap-hangers," or those who are able to find no seat when they enter a car. Both are primarily the result of conditions which obtain on the street cars which operate in Providence and lap over in their service into surrounding towns, but they are made applicable to the entire state and so are of universal interest within its borders.

That either of these bills will be passed does not seem probable, although neither has yet been given serious consideration by the committee to which they were referred. All the members of the Assembly are well aware of the conditions which have prompted these measures, for they cannot reach the State House often without experiencing them, but a strong reluctance to meddle with the affairs of the railroads is felt by the average legislator. In private the members may condemn the corporations which create or permit these conditions, but in public they are inclined to be silent upon the subject and there are many who are not looking for the return of these measures from the files where they have been laid.

Street railway travel needs some regulation beyond a doubt, but neither of these bills reaches the real difficulty. Patrons do not object so much to paying the usual price for transportation, but what they demand is better service, and that will be gained by the passage of these bills only incidentally. The people are not so much concerned about not paying a fare if they must stand as about not being obliged to stand at all, and are not looking so much for a reduction of the price for standing room as for an increase of available seats.

The fact is that the whole matter of better street railway accommodations needs serious attention and it is not likely to have that until a public service commission is created, so that the need is for such a body rather than the passage of laws which will still permit the railroad companies to pack their cars. To be sure, it is quite certain that the companies would not long run cars so full that many would ride free because of being obliged to stand, but the more direct way to secure the end desired is to create a commission, with full authority to regulate the service and to require that this shall be for the convenience and comfort of the people as well as for the interest of members of the corporations who are looking for increased dividends or the continuance of the present fat returns from their investments.

These bills are good enough so far as they go but do not go far enough, and it would be better while acting upon the matter to pass legislation which will be effective not in these particulars alone, but in regard to many other features of the present service which are not in the interest of the people but are maintained because they benefit the railroad stockholders and add materially to their incomes. Half a loaf is of course better than none, but there is no good reason in this case why the whole loaf cannot be had if the proper method to secure it is followed.

NO HABEAS CORPUS.

Americans have been taught to regard the writ of habeas corpus as the very corner-stone of our political institutions, because it enables the judiciary to review the acts of administrative officials. If a man is arrested he cannot be run into a Bastile under a lettre de cachet; the arresting official must show cause; he must produce some evidence against the person who is deprived of his liberty.

Until recently we regarded the writ of habeas corpus as the privilege of the stranger within our gates as well as of ourselves, but the people who have been making recent immigration laws have put the foreigner within our territory beyond the protection of the laws and made an outlaw of him. In several instances an immigrant whom the officials proposed to deport applied for a writ of habeas corpus, only to learn from the highest court in the land that he has no right which an American official is bound to respect, and that if he suffers a grievous injustice at the hands of the immigration officials there is no redress for him.

The latest case of this sort occurred recently before Judge Holt of New York. He dismissed an application for a writ of habeas corpus on the ground of lack of jurisdiction, though he did not hesitate to say that the proceedings of the immigration officials were a disgrace; that they were evidently determined to send the woman who had applied for the writ out of the country, whether they had any evidence against her or not.

Assuredly the number of criminal immigrants is not such as to throw the United States into a panic and lead Congress to exclude foreigners within our jurisdiction from the equal protection of the law. If some criminals or persons of bad character come in they constitute no such menace to our national welfare as to justify us in giving the immigration officials the power to deport them, unrestrained by the review of the courts.

A bitter labor fight over the provision of the naval appropriation bill repealing the eight-hour law is regarded as inevitable by the House leaders. This measure has operated so greatly to increase the cost of construction that the House committee on naval affairs has recommended its repeal. This does not refer to the eight-hour law, as enforced in the government navy yards, but to its compulsory observance on the part of the contractors who undertake the construction of naval vessels. The law has many supporters in the House, who will not allow its repeal without a determined fight, which may endanger the passage of the appropriation bill.

The Convocation of Canterbury has so far approved the proposed abridgment of the Ten Commandments as to entrust to the Dean of Westminster the task of preparing a form to be submitted for consideration in May. As a sample of the proposed changes, it is said that the dean will probably suggest that the Tenth commandment be abbreviated to read simply "Thou shalt not covet." While the shortened form may cover the matter, what right has this convocation or any other organization or body of men to change the reading?

A story comes from Albany that Sheehan has been told that he can have until March 4 to make a last desperate effort to secure enough votes to win the United States Senatorship, but after that time the break-up must come. The term of Senator Depew will expire on that day. In the event of a special session of Congress it is understood that Sheehan would be unceremoniously dropped, so that the Empire state would have full representation. He has already had plenty of opportunity to show his strength

There is small prospect that the bill providing for the direct election of United States Senators will go through the Senate at this session. The opponents of the constitutional change have been successful, by filibustering, amendments and speeches, in preventing a vote, and the time is rapidly growing short when it can be approved.

Congressman Bennet, of New York, whose resolutions for annexation with Canada were promptly squelched by the House committee on foreign relations, must appreciate Lady Macbeth's words: "If it were done, when 'tis done, then 'twere well it were done quickly."

An Indiana fancier has developed a tailless dog. With such an animal there will no longer be a question whether the dog wags the tail or the tail the dog.

Newark, N. J., has succeeded after a 14 days' campaign in raising $300,000, for a Young Men's Christian Association building fund.

The ice harvest goes on, despite the appearance of a general thaw.

THE AMERICAN ARMY.

Impressions of French Nobleman as Written During Visit to This Country in 1783.

Shortly after the surrender of Cornwallis at Yorktown, toward the close of the American revolution, the Comte de Segur and the Prince de Broglie, two young French noblemen, visited America. In their letters home they gave an account of what they saw, releting thus. In an intimate manner, their adventures in the United States, their impressions of the country, of the people, of the army, of its general in chief, Washington, and of the society women whom they met, especially those of Philadelphia and Newport. These letters, which for a century and a quarter mellowed in the family archives, the present Marquis de Segur, member of the French Academy, loaned to Mrs. John Van Vorst, who has translated and edited them for Lippincott's Magazine. Few, if any, more interesting historical documents have appeared in print. Concerning the American army and its chief, the Comte de Segur gives his impressions:

"I had expected (he writes) to find the soldiers ignorant, badly kept, the officers lacking in the polish of our older civilization. I recollected the early moments of their revolution, when farmhands and workmen who had never handled a gun precipitated themselves, pellmell, in a the name of their country, to fight the British ranks, presenting to their astonished eyes a mass of hayseeds who bore no other insignia nor sign of a uniform than a cap upon which was written the word 'Liberty.' You can imagine then, how surprised I was to find a disciplined army, with every appearance of order, reason, knowledge, and experience. The generals, the aides-de-camp, and the other officers showed in their bearing and in their speech nobility, self-respect, and that natural kindliness which seems to me as much above politeness as a sweet expression is better than a forced smile of affected good humor.

"One of my most arden desires was to see the hero of America, General Washington. The Comte de Rochambeau had the goodness to present me to him. How often reality falls far below what we have imagined to ourselves, and our admiration diminishes as we perceive the object which had excited it. But the true General Washington was in absolute harmony with the idea I had formed of him. His appearance revealed him as he was: simple, great, dignified, calm, good, strong; these traits were written in his face and in his bearing as being the qualities of his character. His figure was noble, erect; the expression of his features gentle, amiable; his smile agreeable; his manner simple, without familiarity. He has none of the pomp of a general in one of our monarchies; everything proclaims him to be the hero of a republic. He inspires rather than commands respect, and in the eyes of all who surround him one can see true affection, absolute confidence in the chief upon whom they seemed to place all their reliance. General Washington received me with kindness; he spoke to me of the gratitude which his country would preserve always toward the king of France for his generous assistance. He expressed the highest praise for General Rochambeau, he commended the bravery and discipline in our army, and he pronounced a few very flattering words about my father, his long service in the army, his numerous wounds, 'worthy ornaments,' said he, 'for a minister of war.'"

CHINA'S CRISIS.

[Boston Herald.]

The summary action toward China which Russia evidently is planning to take comes at a time when, by reason of her internal difficulties, China is peculiarly vulnerable and defenceless, and most susceptible to pressure. Washington reports tell of the laudable hope there that Russia, in view of famine and plague, joined with other domestic difficulties which the Pekin authorities face, would "generously defer pressing her claims at this time." This hope is creditable to the feelings of those persons who cherish it, but it is not flattering to their knowledge of Russia's ways.

China, no doubt, will appeal to the powers, and at once find who her real and who her pseudo friends are. China no doubt would look with greatest expectation to this country, to at least insist that she be treated fairly, and that her cause be heard before an impartial tribunal like the court at The Hague. So far, this country could go with propriety, were it found on investigation that the matter at issue was one coming legitimately before that court, and justifying our friendly offices in China's behalf. Obviously we have no right to interfere, if investigation should show that China has failed to keep her treaty obligations, or that no peril to the "open door" policy is involved.

China will do wisely if she lays before the Western world her side of the case in all its fulness, with its charges that Russia also has been unmindful of treaty obligations, and that her neighbor on the north, by various hostile expeditions in the Mongolian region has been guilty of acts "incompatible with the integrity of the Chinese empire." This much she owes to herself and to the world-public. If she counts on making a case that will command the attention of any friendly Powers.

AROUND RHODE ISLAND.

Grand Exalted Ruler Herrmann Guest of Providence Lodge of Elks.

Threatening Fire in Two Westminster Street Buildings—Bristol Caucus Nominations.

Grand Exalted Ruler Herrmann was Friday evening the special guest of Providence Lodge, No. 14, Benevolent and Protective Order of Elks, on the occasion of its annual banquet, his visit being the second of the sort in the history of the local lodge. Mr. Herrmann came from New Haven in the afternoon, accompanied by the members of the reception committee, headed by Past Exalted Ruler William F. Maines and District Deputy Charles E. Shean. He was escorted to the Crown Hotel, where, after a brief reception, he was taken to the Elks Hall on Washington street, where he met members of the order. The official party then went to the Eloise, where the grand ruler received in the parlors until 8:30, when the signal was given to adjourn to the banquet hall. The hall was decorated with stands of American colors, arranged with the colors of the order harmoniously contrasting with the red, white and blue. The front of the balcony was draped with festoons of bunting in the centre of which, directly facing the toastmaster, was an immense head of the American elk above whose widespreading antlers was an old-fashioned clock and below a life-sized portrait of the honored guest of the occasion. After commending the Elks for their determination to establish a home for the order in Providence, Grand Exalted Ruler August Herrmann favored the building of a new national Elks' home. He said the present administration favors such a step, as the buildings at present occupied as a national home are beyond economical repair. He scored the propensity shown at parades in connection with some of the recent annual conventions to introduce burlesque features as deteriorating the standard of the organization through misinterpretation by the public at large.

Fire which for a while threatened to destroy two Westminster Street blocks in Providence broke out in the four-story building owned by the D. C. Wood heirs late Friday evening. It spread to the Tillinghast block at the corner of Westminster and Mathewson streets and caused damage estimated at $25,000. When the blaze spread from the hairdressing establishment of Mrs. L. M. Merrill on the top floor of the Wood building to the rooms occupied by M. A. & A. E. Dowling, dressmakers, on the fourth floor of the Tillinghast block, the gas pipes burst, discharging large volumes of gas. Cornelius Garvey of Hook and Ladder Company No. 6, who happened to be in the rooms at the time, was overcome by the fumes and was rescued by Captain Sullivan of the same company, who carried him down stairs to the street. The man was attended by an ambulance surgeon from the Rhode Island Hospital and by Fire Commissioner William Andrews, who remained with him until he had entirely recovered. Garvey was able to return to the fire station with his comrades.

The Bristol Republicans nominated candidates for town offices to be put before the voters at the annual town elections March 8, at a caucus Friday evening. About 100 were present and voted according to districts, using two ballot boxes. The ticket chosen includes several nominations made by the Democrats and the Citizens' meetings. Frank Paull is on three tickets as a member of the town council, and the nominations for town moderator, town clerk, town treasurer and assessor of taxes are the same. The nominations were unopposed. The ticket was placed in nomination by Wendell R. Davis, chairman of the Republican town committee. The Democrats Thursday nominated candidates for town offices. The ticket was named without opposition and with one exception is identical with that approved at a caucus of the Citizens' party Wednesday. The only difference is the nomination of Rev. Thomas H. Gillan, pastor of St. Mary's Catholic Church, for the school committee place for which James T. Toberston was endorsed by the Citizens' faction.

The street car situation in Providence was discussed by the special committee on railroad franchise and Blon J. Arnold, the Chicago transportation expert, Friday. Mr. Arnold gave a rough outline of his probable procedure in the work and thought he would be able to promise something definite within a period of 30 days. He informed the committee that many of the problems which had confronted the city of Chicago are not to be found in Providence, but that there are problems in Providence which are peculiar to that city. Mr. Arnold's assistant, J. R. Bibbins, has been looking over the ground since Sunday and has observed the conditions at all the points of congestion carefully. Dorrance street is considered as a special problem and the College Hill transportation is another question held by the investigators as of much interest. In the afternoon Mr. Arnold conferred with the representatives of the New Haven road and the Rhode Island Company.

Arthur F. Garland of Salem, N. H., arrived in Providence Friday after an involuntary absence from New England since last August, when he was shanghaied in Boston on board a Norwegian ship bound for Buenos Ayres. He traveled, by land and sea, more than 20,000 miles since he left Boston, in an effort to reach home again. He came ashore breakfastless and "broke," but game for a little walk of 44 miles to Boston to lay his case before the United States shipping commissioner there, if no one in Providence could be induced to part with 90 cents, the price of carfare to the Hub. As his story was borne out by his shipping papers and discharges, he did not find great difficulty in finding a man in a water front office who was charitably inclined, and was soon at the Union station buying his ticket. Garland, who is 26, had a wife and child and a home in Milford, N. H., when he went away. He received a letter while in New York from a friend of his wife's, saying the latter had taken the child and gone for parts unknown. Garland said he would make no effort to locate the missing family, his principal grievance being against the shipping agent who, he says, shanghaied him, and whom he intends to see punished if possible.

Miss Jane Addams of Hull House, Chicago, at the invitation of Professor Henry I. Fowler, who has charge of the chapel services during the absence of Dean King, spoke at the chapel of the Woman's College in Providence Friday upon her experiences as the head of the Hull House in connection with young people of foreign nations. In her remarks she urged friendship with people of the poorer class. Special music was furnished by the chapel choir, and at the close of the service a reception was held in honor of Miss Addams in the library of Pembroke Hall. Miss Sarah E. Doyle, Miss Addams and Professor Fowler received.

AN INDEFENSIBLE BILL.

[New York Tribune.]

The Senate committee on pensions has reported the Sulloway pension bill, with an immaterial amendment, thus aiding the progress of a measure which ought not to be passed at this or any other session. The amendment reduces the maximum monthly rate to be paid to veterans 75 years old or more from $36 to $30, and would thus slightly decrease the extra annual charge imposed by the bill, which would, however, still exceed $40,000,000. Such an increase is unjustifiable in view of the sum already devoted to pensions, which for 1909-10 was $160,909,000 and for 1910-'11 $156,768,000, and which will be about $153,000,000 for 1911-'12. The Sulloway bill, if it becomes a law, will necessitate new taxation, but Congress, instead of providing means to meet a new annual obligation of more than $40,000,000, seems disposed to vote the money away first and consider plans for raising it afterward, or not at all. An addition of $40,000,000 to the Treasury's annual outlay would more than wipe out the savings made by the Taft administration through many praiseworthy economies. The President has earnestly labored to check the expansion of federal expenditure, and has succeeded in holding the appropriations of this Congress within reasonable bounds. But all that effort would be nullified if the pension account should be suddenly enlarged from $153,000,000 to nearly $200,000,000.

The sum carried by the Sulloway bill is excessive and beyond the nation's means at present. Moreover, the theory on which the measure is constructed is faulty. If any increase in pension allowances is to be made, its benefits should go to the worthiest—the men who served longest and were subjected to the greatest dangers and privations. Those who enlisted for a year or longer and those who were made prisoners should be put in a different class from the 90-day men, many of whom never saw the front and endured no hardships whatsoever. It would be more reasonable to continue the present allowances on the 90-day basis and make additional allowances for special classes of pensioners, according to the character of their service. The men who really fought and suffered do not want to be lumped in one class with the three months' levies called out for an emergency and serving only in the second line.

The country is entirely willing to reward the veterans in accordance with their deserts, but it is not willing to sanction any more dragnet and omnibus pension legislation.

PHRASES WHICH CARRY BITTERNESS.

[Kansas City Star.]

The war of the Revolution was fought 130 years ago, but the healing of the wounds it left is low. Professor Albert Bushnell Hart of Harvard University is justified in urging that school histories be purged of the old bitterness with which that great civil war of the English speaking peoples was attended. It is almost as difficult for nations as for individuals to forget ancient feuds. They are re-inforced by national antipathies. Strangers are not cordially received even in a modern church without urgent proddings from the pastor. They are looked on with much suspicion everywhere, and this is increased where they live under a different government, have different customs and speak a different language.

Very early in their history the Jews became convinced that they were the chosen people, and they held aloof from the Gentile world. The Greeks referred contemptuously to the people whose languages sounded like "barbar" as barbarians. The barbarians were just as contemptuous of the "Greeks bearing gifts." The English speak of a defaulter as "taking French leave," and French peasant women still frighten their children with threats that the English will get 'em ——threats that have come down from the wars of the middle ages. French historians have always written as if France were the real centre of civilization and as if the people of other nations lived in outer darkness, while only recently appeared a bulky set of volumes from an English historian with the modest title, "How England Saved Europe."

THE WEATHER.

BOSTON, Feb. 18.—Forecast for Boston and Vicinity—Unsettled, probably rain or snow tonight or Sunday; colder tonight, moderate to brisk northerly to easterly winds.

WEATHER CONDITIONS.

The pressure has fallen considerably in all Atlantic and Gulf coast states. The Lake depression moved northeastward, with increasing intensity. Light to moderate amounts of rain or snow were produced during yesterday and last night in the lower Lake region and New England. Heavy precipitation has occurred in Kansas, Oklahoma and central Texas, much of that in Kansas being snow. Some precipitation has also occurred on the north Pacific slope. There is generally fair weather in other districts. The high pressure area that was off the Middle Atlantic coast has diminished and passed eastward. A marked area of high pressure appears in the British northwest. The southwestern depressions show little energy. The high temperatures of yesterday noted in the lower Lake region and Ohio valley have fallen to nearer the normal, while in Atlantic coast districts and the northeast warmer weather prevails. The high pressure area in the northwest has brought cold weather to Montana and the Dakotas. In New York at 8 a. m. it was 42, Washington 54, Jacksonville 66, St. Louis 38, Chicago 36, Kansas City 32, Des Moines 32, St. Paul 16, Denver 24, San Francisco 44, and Portland, Oregon 44.

In Memory of William G. Roelker.

At a regular quarterly meeting of the Board of Directors of the Newport Trust Company, held February 17, 1911, the following minute was adopted:

William G. Roelker was born in Cincinnati, Ohio, June 12, 1851. He [illegible] New York City January 21, 1911. He was generously educated in this country and abroad having been a student in the Academy of Geneva and the University of Berlin. He was graduated from the Harvard Law School in 1875 with the degree of L. L. B. and practiced law with an office in Providence. He early interested himself in public affairs, and was a member of the Rhode Island House of Representatives in 1877-8, and of the State Senate from 1895 to 1902. He was a delegate to several Republican National Conventions, and in 1892 was a presidential elector. He was a member of several business and social organizations and of the Society of the Cincinnati.

Mr. Roelker had large abilities as a financier and business manager, and he was very successful in the conduct of numerous large affairs. With a few associates he had much to do with various transportation interests in the vicinity of Providence, including the re-organization of the street railway service of that city and its suburbs.

Mr. Roelker was an incorporator of the Newport Trust Company, and a member of its Board of Directors from the formation of the company in 1903 until his death. During a considerable number of years he made Newport his summer home.

We wish to record this brief tribute of Mr. Roelker's very active life, and our appreciation of his unusual ability as a financier. We record also our regret that this able busy life is ended, and we express our sympathy to the family.

FIRST DEFEAT AT HOME.

Rogers Plays Up-Hill Game Against Durfee Textile, But Fails to Win.

Naval Reserve Tigers Beat Providence Red Sox and Chiclets the Independents.

The Rogers basket ball team suffered its first defeat of the year on its own floor, when it lined up against the fast Durfee Textile School Friday evening. It played a hard uphill game against a team which had a decided advantage in weight and experience, and lost by a score of 30-23. The game was lost in the first half, on account of Rogers inability to cage the ball. Many times it was purely hard luck that the ball did not go into the basket, but there were other occasions when, if a little time had been taken in shooting, the shots might have counted. In spite of this, however, the high school boys played well, and the way they covered their big opponents was a revelation to the spectators.

The home team was wild in passing and showed in strong contrast with the brilliant work of the visitors in this respect. The latter were too strong in their team work and shooting, and Rogers did well to keep the score down. The game was rough, as is always the case when a heavy team lines up against a light one. However, the referee kept the play well in hand, and prevented the roughness from going too far.

The first half went to the visitors, 19-8. Both teams started with rush, but in the rush Rogers lost its team work somewhere and the players bunched up. Time after time the visitors scored after cleverly executed passing, and there was no one to stop them. On the other hand, when Rogers advanced the ball to their end of the field, either hard luck or poor shooting kept it from going into the basket. Three baskets and two fouls constituted their scoring, while the visitors counted nine times.

The game may be said to have been lost in the first half, for in the last period Rogers out-scored their opponents by four points. Cheered on by the spectators, the Newporters tore in against the visitors, and kept them on the jump all the time. Rogers gave the finest exhibition of blocking seen on the floor this year. Their shooting was better than in the first half, and in the last five minutes they took such a spurt that at looked as if they might win after all, but the visitors had too much a lead for that. The nearest Rogers came to their opponents was five points. Five of Rogers 15 points were scored on fouls. The period ended, 16-11.

The Durfee Textile team is the same which played here last year, and was defeated by Rogers 16-14. Their line-up was exactly the same. Friday evening Schofield and Farrel played the best game, Schofield was a fast forward, while Farrel was noticeable for his blocking. Sutcliffe in the last half was in the limelight for his spectacular shooting.

Knox was the star for Rogers and his playing was brilliant. He had a hard man against him, but showed himself capable of great floor work. Cox, coming into the game in the second half, strengthened the team considerably, his foul shooting being a feature. Freeman played an excellent game in the back field, and did much towards keeping the ball away from the visitors' basket. The summary:

Rogers.	Durfee Textile.
Knox, r. f.,	l. b., Donovan
Arnold, Cox, l. f.,	r. b., Farrel
Underwood, c.,	c., Sutcliffe
Anthony, Martin, r. b.,	l. f., Schofield
Freeman, l. b.,	r. f., Sheldon

Score—Durfee Textile 30, Rogers 23. Baskets—Knox 4, Underwood 3, Donovan 3, Farrel 3, Sutcliffe 3, Schofield 2, Sheldon 3, Cox. Fouls—Cox 5 Anthony 2, Sheldon 2. Referee—Walker. Scorer—McManus. Timers—Harrington, Reynolds. Time—Two 20-minute halves.

Two games were played at the state armory, the Naval Reserve team being successful in each, the Tigers beating the Red Sox of Providence, 20 to 13, and the Chiclets defeating the Independents of this city, 24 to 20. The Tigers presented a new player, Easton of the Chiclets, in the second half, playing a strong game both against the Red Sox and on the Chiclets against the Independents.

The first game was between the Tigers and the Red Sox. The latter were the heavier team, but the Tigers made up in quickness for their lack of weight. Crowell scored the first points, a field goal, for the visitors, but West with a foul and a field goal soon secured the lead for the Tigers, which they held to the end. At the conclusion of the first half the score was 13 to 8 in favor of Newport. In the second Easton took Rudolph's place and livened the play. Each team in this half scored the same number of points. The line-up was as follows:

Tigers.	Red Sox.
West, r. f.,	l. b., Atkinson
Clancy, l. f.,	r. b., Head
Ring, c.,	c., Corey
Wolff, r. b.,	l. f., Crowell
Rudolph, Easton, l. b.,	r. f., Cameron

Score—Tigers 20, Red Sox, 13. Goals from floor—West 5, Clancy, Ring, Wolff, Easton; Head, Crowell 3, Cameron. Goals from fouls—West 2; Head 2, Crowell. Referee—Harvey. Scorer—Leary. Timer—Walsh.

The game between the Chiclets and Independents was fast and exciting. The Independents played the best in the first half, having a lead of 10 to 5 at the end, but in the second were unable to hold out against the fast work of the Chiclets, who scored 18 points to their opponents' 10, giving them a lead of four points on the two games. The line-up follows:

Chiclets.	Independents.
Brown, r. f.,	l. b., Miller
Easton, l. f.,	r. b., Allen
Powell, c.,	c., Nolan
Weatherell, r. b.,	l. f., Shea
Fitzpatrick, l. b.,	r. f., Kane

Score—Chiclets 24, Independents 20. Goals from floor—James 4, Easton 3, Powell 2, Wetherell, Fitzpatrick, 2; Miller, Allen, Nolan, 4, Shea, Kane 2. Referee—Leary. Timer—Walsh. Scorer—Williams.

The Calahad Pages won from the Algonkins, the score being 8 to 0. The Algonkins, which are to play St. Joseph's five, are one of the strong teams in the City league, judging by the way they defeated the Pages so easily in their own hall Thursday evening by the score of 8 to 0. This shows that the Algonkins are travelling at a fast pace. Underwood, who played in this game and scored nine baskets, will again be in the line-up, and probably against Calahad, who is considered one of the fastest forwards in the league. The Algonkin's men are in good condition after the hard game with the Pages and can be depended upon to give a good account of themselves.

Kenny and Meehan, who did so well in holding down the fast Tabs forwards, will be in their regular places. If the Algonkins win this game they will be tied with the Tabs for second place.

LIKE THE GRAND ARMY SPEAKERS.

To the Editor of The Daily News:

That there was great disappointment in some of the lower grades on Flag day at the absence of Grand Army men, witness:

"Did you sing 'Marching Through Georgia' this year?"

"They didn't give us any Grand Army this year, but we wish they would."

Small children like to hear talk by the Grand Army men rather than by professional orators. Make all else secondary to the Grand Army men, please.

Parent.

Newport, Feb. 18, 1911.

JAMESTOWN.

[Regular correspondence of The News.]

The first round in the fourth series of whists at the Boys' Club was played Thursday evening, team No. 4 winning. The drawing for partners and teams resulted as follows:

Team No. 1—George Chandler and John Robinson, L. W. Anthony and Glass Littlefield; team No. 2—J. Sehlrith and W. H. Brooks, W. F. Caswell and W. A. Clarke; team No. 3—C. Wright and F. Gamache, John Brooks and P. Blackwell; team No. 4—H. S. Stubbs and Everett Tefft, Alonzo Tefft and Samuel Smith.

Friday night's rain and the thaw today put a stop to any attempt to commence ice cutting. Unless a cold snap comes soon the ponds will again be broken up.

Steps are being taken for the calling of a special town meeting, to act on the ferry question should the amendment to the charter before the legislature pass the lower house next week.

Mrs. Knudson and son who have been guests of Mr. and Mrs. J. A. Carr have returned to New Haven.

The town's team is covering the sidewalks with sand to make them less slippery.

Miss M. M. Hopkins of Providence is visiting on the island.

C. E. Weeden has rented for Mrs. N. M. Southwick her cottage on Bryer avenue to Mantle Fielding of Philadelphia for the season of 1911. This will make Mr. Fellding's fourth season at Jamestown, during three of which he has occupied the same cottage.

LOCAL BRIEFS.

—Officer Esleeck is on sick leave.

—Mr. Max Agassiz is here to spend Sunday.

—Mr. and Mrs. Anthony J. Drexel have sailed for Europe.

—Mrs. W. J. Wollin has gone to New York to visit her son.

—Two nights this week the local hotels were obliged to refuse applicants.

—Mr. and Mrs. Edward A. Brown have been spending a few days in Boston.

—General and Mrs. Frederick M. Sackett sailed for Europe today on steamship Carmlnia.

—Mrs. Alexander S. Clarke and Mrs. David King sailed for Europe today on steamship Adriatic.

—Miss Marion Dow who has been at "Dudley Place" for several days, returned to Boston today.

—Mrs. Louise Green of this city, who has been in a private hospital in Hartford, is slowly improving.

—Mr. and Mrs. Moriarity, who have been visiting Colonel and Mrs. Sheffield, have gone to Boston.

—Mr. Edward A. Martin, assistant to Ticket Agent Greene, is expected home Sunday from his vacation, which included visits to New York and Washington.

—Herbert L. Dyer has rented for P. H. Horgan the store at 146 Bellevue avenue, corner of DeBlois street, to Carl J. Swenson.

—Rev. C. J. Wigren, after several weeks of illness, is so far recovered as to be able to resume his work as pastor of the Swedish Methodist Episcopal Church.

—Late arrivals at the Perry House include M. A. Freeman, D. E. Condit, New York; John Hines, George J. Cottrell, Boston; C. H. Perkins, Newark; Frank Johnson, A. T. Atcheson, Geo. Hoffman, Philadelphia.

—Mr. and Mrs. Charles A. Loder of Arcola, Pa., Mr. and Mrs. C. A. Mathews and P. H. Seaton of Providence and D. E. Moore and M. F. Lees of Boston are registered at the United States Hotel.

—The leevator for the Army and Navy Young Men's Christian Association building has arrived from the works of the Otis Elevator Company. As it will be two months or more before it can be placed in the building, it will be stored.

—It looks rather out of season to see sea bass in the fish markets and sheepshead, but as they came from Florida the only wonder is that they look so fresh. There are also Spanish mackerel, and handsome cod are brought in by the local fisherman.

—Mrs. L. D. Davis, formerly of this city and now making her home with her daughter, Mrs. F. P. Powers, in Philadelphia, observed her eighty-fifth birthday today and was in receipt of many tokens of remembrance.

—The police this morning had two old-timers in the tolls, the charge being plain drunk. One was fined $5 and costs and the other $2 and costs. The five-dollar man had just five in his possession, but that was two-sixty short, and so both went to jail.

—Rev. Manuel J. Barros of St. Anthony's Church, Portsmouth, was guest of Mr. Jesse Almeida in this city Friday. Father Barrios was one of the Dominican order, which was banished from Lisbon, Portugal, last October, when the Republicans overthrew the Monarchy. This was Father Barrio's first visit to Newport, he having recently arrived at Portsmouth.

—It rained a little this morning, just to show that all the moisture is not in the shape of mud. Then it tried to clear away and the sun came far enough through the clouds to show itself. The wind shifted to the northwest and it looks like clear weather. That is how it looks, but the weather is subject to change without notice, and predictions are for rain or snow.

—While tarring lobster pots on a bit of open space between Ferry and Bowen's wharves this afternoon, the tar boiled over and immediately a huge cloud of black smoke rose over the scene. The men at work covered the kettle and waited for the tar to burn out. A crowd gathered, but those who thought of sending in an alarm also thought to determine upon the necessity first and so the firemen were not called.

—The body of Agnes, wife of Alexander S. Hoth, arrived here Friday from Portsmouth, N. H., and the funeral took place this morning from St. Mary's Church, where Father Meenan celebrated the mass of requiem. The interment was in the family lot in St. Mary's cemetery. The deceased was the only daughter of Patrick J. and the late Margaret Hayes, a native of this city and well known to a large circle of friends.

AT THE END OF THE THIRD HALF.

Survey of the Games Played in the City League and the Standing of the Teams.

This week the City Basket Ball League passed the halfway mark in the struggle for the championship. The first half consisted in each team playing one game with each other, on its home floor. As there are six teams, this meant a total of 30 games, five on each floor.

At the start, before a game had been played, three teams loomed up strong—the Tigers, Calahads and Algonkins. They had experience and should have done the work. The Tigers especially, after their practice with the Naval Reserves, should have beaten every team in the league. But "should have" and "did" are two two different things. The Tigers were lazy, played on their own floor and loafed elsewhere, as a rule, while the Algonkins and Calahads went into the contest without proper training. In basket ball the team and the player must work, and the teams which did the work, from whistle to whistle, showed up.

The Tabs were the first to show this. They went into the contest with the idea that it was to be a struggle and not a picnic. It was no picnic, and they were not disappointed when they found plenty of hard work in every game. They were prepared for hard work and forged to the front and held it, though tied by St. Joseph's at the end of the first half.

The St. Joseph's team was another exponent of the same rule. They played hard. They did not show the versatility of the Tabs, but they did what was as good; they defeated the Tabs on their own floor. This compensated for the fact that they did not win as many games on opposing floors.

This winning at home and away from home was largely a matter of habit. Owing to the differences in the halls, each team had a distinct advantage on its own floor and a visiting team needed to play considerably better to win away from home. The Tabs won three of their visiting games, losing only to the Tigers and St. Joseph's. They, however, lost at home, one game to the St. Joseph's, The Tigers and St. Joseph's won every game at home, but the Tigers won only once away, and that was at the Y. M. C. A. They made a great try to win at the St. Joseph's hall and showed in that game that they could play. A little extra effort at Algonkin or Calahad would have given them a victory.

Algonkin won four at home and two away, Calahad three at home and one away. The Y. M. C. A. team seemed to have a combination of hard luck and poor support all the time and had a clean record—won none at home and tied this record away. It played two overtime games away from home, which showed the boys were playing. The standing of the teams at the end of the first half was as follows:

	Won	Lost	Per cent
Tabs,	7	3	700
St. Joseph's,	7	3	700
Algonkin,	6	4	600
Tigers,	6	4	600
Calahad,	4	6	400
Y. M. C. A.,	0	10	000

The total scores made by each team at home and away give some indication of the playing, though not an absolute index. The scores of each team, followed by that of its opponents, at home and away, were as follows:

	At Home	Away
Tabs,	179 to 85	87 to 55
St. Joseph's,	147 to 80	119 to 133
Algonkin,	124 to 116	107 to 142
Tigers,	166 to 82	102 to 122
Calahad,	126 to 126	110 to 152
Y. M. C. A.,	91 to 141	106 to 196

It will be noted that the Tabs scored more points away than did the home team played against. The St. Joseph's held the visiting teams down to the lowest scores, though the Tigers and Tabs were close and each scored more points than did St. Joseph's.

In the second half, which had begun before the first was ended and will run until March 31, according to the schedule, it seems likely that all the teams will play harder against the two leaders, the Tabs and St. Joseph's, than against any others.

MRS. WHITNEY WARREN'S LOST NECKLACE.

Mrs. Whitney Warren upon a recent visit to the Paris Decorative Arts Museum was surprised to see in a collection loaned the museum by Mme. de Perdussin an eighteenth-century necklace of brilliants valued at $600, which she herself had lost. Mrs. Warren brought suit for the necklace and the court ordered Mme. de Perdussin to return it. Mme. Perdussin bought the trinket from a dealer who had acquired it from a hotel keeper, who had taken it from a woman in payment of a bill for $76.

REAL ESTATE SALES.

The Gibbs Land Company has sold to Virginia B. Gibbs the lot bounded south, 100 feet, on Old Beach road; west, 209 feet, on Eustis avenue; north, 100 feet, on land of Hope Ives Powel, and east, 200 feet, on land of the Newport Water Works.

Fred T., Rodolph A., Eleazer T., Horace and Adelaide M. Martland have quitclaimed to Wallace C. Martland the estate bounded north on Gould street, east on land of Edward O. Riggs, south on land of William M. Smith and west on land of Sarah E. Hazard.

Marco A. Russo has sold to Pasquale Russo lot No. 3 of the Russo plot, bounded southeast, 38 feet, on Russo court; southwest, 74 feet, and northeast, 73 feet, on other land of the grantor, and northwest, 38 feet, on land of estate of Edward A. Hassard.

John Bernier and wife have sold to Sarah A., wife of W. D. Sayer, the lot bounded southeast on Warner street, southwest and southeast on land of Ernest Weston, southwest on land of Cordelia D. Roscoe and Rebecca M. Lawton, northwest on Dodge court and land of W. R. Dodge, and northeast on land of Alexander Nicol.

Cynthia R. Denham has sold to Elizabeth D., wife of Howard G. Ward the estate bounded west, 59 feet, on Spring street; south, 50 feet, on land of George C. Barker, deceased; west, 50 feet, on land of H. E. Ward; north, 12 feet, and west, 4 feet, on land of Felix Peckham, and north, 50 feet, on land of George Popple.

SALE OF FIRE DEPARTMENT HORSES.

It looked like the opening of spring this morning on Washington square, when Auctioneer F. W. Greene offered for sale the two horses of the fire department which are no longer suited to that but are good for other work. The attendance was large and the bidding spirited, and the prices realized were considered good. The big horse, one of the truck team, brought $176, and the smaller one from the Twos' reel, $127, to total of $303. The prices are high, but the horses are good and this is the season when horses which can work are in demand. There was also another horse sold, and carriages, incubators and other material which went at prices which showed that some people know spring is near at hand.

ICE HARVEST GOES ON.

Still Cutting, at Both the Lily and Bull Ponds, Despite the Thawing Weather.

Some may think, from the way things are melting in town, that the ice cutters have quit work, but such is not the case; they are working right along. At the Lily pond the Arctic company's men stopped early Friday afternoon because the ice was growing soft, but it hardened as soon as night came on, forming on sidewalks and elsewhere despite the fact that the thermometer registered 37. They are at it again this morning.

The Independent company is still cutting on Bull's pond, but today only about half as many teams are cutting and at times it looks pretty slow at the house on Sherman's wharf. Mr. E. A. Brown, at "Brookfield Farm," has a gang of cutters at work and by tonight expects to have his houses filled with 1,250 tons of ice which will go far to keep him going, in town and out.

The conditions for harvesting are not ideal, but there is ice and it is a case of cutting it while it is cuttable. It cannot be harvested after it has thawed.

RELEASED FROM ICE PACK.

Steamer Bruce Freed from Her Perilous Position Off Low Point.

NORTH SYDNEY, C. B., Feb. 18.—Steamer Bruce, which has been jammed in an ice pack one mile off Low Point, since last Saturday, was released from her perilous position late yesterday, by a westerly wind. The boat under her own steam reached Louisburg harbor last night. During the past week the Bruce has been continually threatened destruction by the grinding ice pack. The ice piled up to the rail of the steamer and so menaced the safety of the large passenger list that over 60 were carried over the ice and cared for at Low Point light. Contrary to instructions from the owners the captain and crew remained on board the steamer and when the ice began to loosen yesterday the boat had little difficulty in gaining the open water. Later an inspection of the boat's hull showed only a few slight dents from the continual pounding of the ice cakes.

FOR STATE OF WASHINGTON.

Russian Woman's Suffrage League of St. Petersburg Sends a Memorial.

OLYMPIA, Wash., Feb. 18.—A memorial from the council of the Russian Women Suffrage League of St. Petersburg congratulating the state of Washington on the adoption of woman suffrage, was received by the legislature yesterday. The memorial reads:

"To the congress of the state of Washington: Honorable gentlemen: Please accept our greetings and kindly transmit our warmest congratulations to all the women of your state on the events of their obtaining rights of suffrage and citizenship.

"On behalf of the Russian Woman's Suffrage League we send to your American sisters a message of love and with this message goes the hope of successful work for the welfare of their state and their country. May the example of your state be a strong inspiration for the other states of your great union and may the Lord bless your citizens for the justice they have done to their sisters."

FOR FIRE MARSHAL'S FAMILY.

Philadelphia and Chicago Americans to Play Benefit Game in Chicago.

CHICAGO, Feb. 18.—The Philadelphia Americans and the Chicago Americans will play here May 26 for the benefit of the family of the late Fire Marshal James Horan, who lost his life in the stockyards' fire, two months ago. The dead fireman was a baseball "fan" and the promoters of the benefit expect to make it one of the biggest events of the kind ever attempted. The gross receipts are to go to the family.

5,000 OPERATIVES IDLE.

Cotton Mills in Waltham and East Watertown Shut Down.

WALTHAM, Mass., Feb. 18.—Upwards of 5,000 mill operatives in Waltham and Watertown are temporarily idle. The Hood Rubber Mills in East Watertown were shut down today until February 27, because of a lack of orders. The company employs 3,500 operatives. At the Boton Cotton Mills here 1,000 hands are idle. The company officials state that the operatives were laid off because of a strike of seven men, for an advance in wages.

HITCHCOCK WINS FIGHT.

Postoffice Department Likely to Secure Desired Legislation.

North Carolina Has the Best of New Hampshire in Contest for Public Monuments.

[Washington Correspondence of The News.]

WASHINGTON, Feb. 17.—No doubt the Postoffice Department can stand the criticism directed against it in this Congress when it contemplates the fact that nearly all the legislation it has been advocating has been passed or is in a fair way to go through. To the department the most important measure is that relating to an increase of the second class rates on periodicals which the Senate committee incorporated as a rider on the postoffice appropriation bill. It is the most radical innovation which has been made in the postal laws for several years. If the plan of the department should be carried out it will mean changes of an important character in the magazine business.

The beginning of parcels post legislation is also an important new move. Just as was the postal savings bank provided for in the last session of Congress. The department has also been successful in preventing the passage of legislation that it does not approve. The Tou Velle bill and one relating to second class privileges for fraternal publications are samples. There is a war of words over the Tou Velle bill carried in documents composed of a letter from the Postmaster General and a rejoinder by the national joint committee of printers who oppose the government's printing of stamped envelopes.

In these days it is not unusual to have appropriation bills prepared by one man. On account of illness or because Senators are elsewhere engaged it often happens that one or two Senators will handle an appropriation bill. Almost without any help Senator Gallinger prepared the District of Columbia bill, while Senators Warren and Burkett were the only Senators who kept on the job during the consideration of the legislative bill in committee. The pressure of business during a short session makes this method of handling bills necessary.

The Senate was about to complete the enactment of a bill for a statue of General Nathaniel Greene at Guilford, N. C., which moved Senator Gallinger to remark: "There is a somewhat singular circumstance connected with the matter of erecting monuments to the great soldiers of the Revolution. I think this must be the third bill in the last two or three years that has provided for monuments in North Carolina. I have been instrumental in passing bills through the Senate six or eight different times for monuments to General Stark and General Miller, but they seem to get lost somewhere. However, North Carolina always turns up with favorable action. I am not going to play the dog in the manger in this matter, but I do hope that North Carolina will desist from further importunities until New Hampshire has some little recognition."

It may not have occurred to Senator Gallinger that Congressman Thomas of North Carolina is a member of the House committee on library, which deals with monuments. The New Hampshire Senator knows how important committee membership is in the matter of getting things for constituents.

Much to the surprise of everybody Congressman Macon of Arkansas, who has been making a record as an economist, supported the bill for building American embassies abroad. He said he opposed the bill which would expend $500,000 for each of the embassies, but supported the proposition for buildings costing $150,000. "If fortune should happen to send the average member of Congress abroad as an ambassador," said Macon, "and he was forced to live in one of those $500,000 mansions he would rattle around in it like a dry pea in a pod."

Senator La Follette, Senator Bourne and two or three visitors wanted a have a conference. They had been standing in the corridor behind the Senate chamber. One of them remarked. "We can go into the President's room or the Vice President's room."

"Let us go into the President's room," said one of the Senators. "That is a prophetic remark," said a man who heard it. He no doubt had in mind that both La Follette and Bourne have been mentioned as possible Presidential candidates.

Having been for years a resident of Maine, it is natural that former Congressman Littlefield should guess occasionally. He guesses that the Democratic race next year will be between Governors Harmon, Wilson and Dix. Then he adds that Champ Clark is a very able man and may win in case there is a prolonged contest.

Arthur W. Dunn.

MIDDLETOWN.

[Regular correspondence of The News.]

Mrs. Arthur R. Anthony of the West road was to have entertained the Oliphant Club Friday afternoon, but owing to the rain no meeting was held. The progressive whist for the benefit of the Middletown Free Library, which to have been given the latter part of February by this club, has been postponed until after Easter.

Rev. Clayton E. Delamater of the Methodist Episcopal Church has in preparation a free illustrated lecture entitled "The Sons of Ham, or Touring in Africa."

The Junior Chapter, Brotherhood of St. Andrew, of Holy Cross Church, is planning to give a one-act comedy, entitled "A Thief in the House," before Lent.

By afternoon Friday 25 teams were carting for the Newport Ice Company from "Hillside Farm," and ice was rushed to the city as fast as possible. Many of the teams carted four loads during the day, of a ton and a half to two tons each.

A TELESCOPE HOUSE FOR COMMODORE JAMES.

In addition to the stable at the Commodore James place, work has been started on what is called a telescope house, though some would call it an observatory. It will be situated on the highest point and be equipped with a powerful telescope, which will be used largely for terrestrial observations. Mr. Addicks had a fine telescope at the old house which the present structure has supplanted, and it was located on the plazza on the southwest corner, whence a good view to sea could be had.

BARGAINS THAT ARE ALMOST GIFTS.

WINTER IS PREPARING TO LEAVE US. SPRING IS SURELY COMING!

This means that we gather from every one of our many departments,

Odd Pieces, Reduced Lengths, Broken Assortments

and move them out at once and at any sacrifice. Values are not considered now. More room must be had for Spring Importations. As always we gladly give you the benefit of an opportunity to get many desirable things at prices that will amaze you as you read them.

YOU WILL AGREE THAT THESE ARE PRACTICALLY GIFTS RATHER THAN JUST BARGAINS.

China Bargains.

A LONG LIST OF ENTRANTS.

New York Athletic Club to Hold Games at Madison Square Garden.

NEW YORK, Feb. 18.—Yale, Princeton, Pennsylvania, Cornell, Dartmouth and other colleges will be represented by their athletes tonight, at Madison Square Garden, where the annual games of the New York Athletic Club occur. The pick of the high class men from athletic clubs here and in nearby cities are scattered down through the list of entrants in the various events, also, accordingly the prospects seem excellent for spirited contests all along the line. Much interest attaches to the running of the Baxter-mile this class of the contestants giving rise to hopes that a new record for the distance indoors will be set up. Kiviat, Ronhag, Tait, Glasing and Helmuna are among the flyers entered. O. E. Holland will represent Boston and two Dartmouth men said to be exceptionally fleet, have been entered by Harry Hillman.

A VETERAN OF THE CIVIL WAR.

William Duckstein, Curator of Arts in the Capitol Building, Dead.

WASHINGTON, Feb. 18.—William B. Duckstein, curator of arts in the capitol building, and a well known figure about the building, died at his home here last night aged 69 years. Death was due to uraemic poisoning. Mr. Duckstein was an artist of considerable note and accepted the capitol position in 1894. He was a veteran of the Civil war and will be buried in Arlington National Cemetery.

FOR PAPER MANUFACTURE.

The Experimental Ground Wood Pulp Mill Begins Operations.

WASHINGTON, Feb. 18.—With a view to gathering information as to the relative value of plants and woods for paper manufacture the experimental ground wood pulp mill, which the Department of Agriculture located at Wausau, Wis., has begun operation. The mill was made available by an appropriation of the last session of Congress which authorized the Secretary of Agriculture to conduct tests along this line. The department for some time has been testing various woods in the laboratory. Some have been found to be suitable for pulp manufacture and the forest service has actually made paper from several of them by chemical means. To ascertain their commercial value it was necessary to subject them to methods of manufacture comparable to those which are employed in actual business operations. With this end in view the mill was established.

DONATIONS FOR THE WORK.

Women's Foreign Missionary Society Raises $80,000 in Pittsburg.

PITTSBURG, Feb. 18.—Over $80,000 was raised here during the jubilee of the Women's Foreign Missionary Society, which closed last night after a three days' session. The jubilee embraced all the Protestant denominations and the money will be used to carry on missionary work during the ensuing year. The goal of the society is $1,000,000, and large sums have been raised in various other cities.

Imperial Bank of Germany's Discount Reduced.

BERLIN, Feb. 18.—The rate of discount of the Imperial Bank of Germany was reduced from 4½ to 4 per cent today.

LOCAL BRIEFS.

—Electricians from Boston are changing the lighting system at the freight shed on Long wharf.

—Miss Gertrude Weston, Miss Blanche A. Cowles and Miss Jessie Cowles have gone to New York on a visit.

—Mrs. James Brierley and Miss Brierley left Friday for Fishkill-on-the-Hudson, to attend the funeral of Mrs. Brierley's brother, Mr. John Sewall.

—Contractor J. D. Johnston is at work on an addition and improvements to the Ledyard cottage on Catherine street, recently purchased by Mrs. L. L. Lorillard.

—Mrs. French is having alterations made at "Harbour View," where four rooms are being thrown into one without affecting the exterior of the cottage. This work is being done by a Boston firm.

—Captain William L. Little, medical corps, U. S. A., at Fort Adams, has been relieved from the annual inspection of the hospital corps, Rhode Island militia, and Major Alexander N. Stark, also at Fort Adams, has been detailed to the duty in Captain Little's place.

—At the organization of the annual conference of the boys' department of the Young Men's Christian Associations of Massachusetts and Rhode Island, at Worcester Friday evening, John Hoar of this city was elected secretary. The election of officers preceded the annual banquet, at which Mayor James Logan and other Worcester speakers extended a welcome to the boys.

ARCHITECTURE IN 1910.

Year Will be Remembered for Advance Along Preconceived Lines.

Time Required for Creation of a Distinctive American Style for Public Buildings.

[New York Evening Post.]

In the annals of architecture and homebuilding and decoration the year 1910 will not be remembered so much for any revolutionary innovations or important discoveries of new methods or materials as for a steady, consistent advance along the best developments of the years immediately preceding. Nothing new ever becomes permanently established in the architectural profession or the building trade in a year's time, either an idea for construction or decoration, or a theory's practical expression in the invention of a new material. The year just closed has brought forth few new ideas of any sort, but it has contributed largely to the permanent retention of certain theories and practices which before were more or less experimental.

In public work there has been a decided tendency away from the French school and the influence exerted by the Ecole des Beaux Arts in Paris. This is manifested most conspicuously in such structures as the new Pennsylvania station, the municipal building, and the new postoffice, all in New York. None of these important buildings is exclusively the product of 1910, but the year just closed has been an important one in the planning or construction of each. As compared with other countries, and with recent years in the United States, the leaning has been strongly away from the French idea and toward the simpler designs which almost without exception have been the winners in recent competitions of importance.

Still, it can hardly be said that a distinctive American style for public buildings has yet appeared, or that even its outlines are yet discernible. Time is the chief factor in the creation of a new style in architecture, or rather, the first requisite for its development. If there ever is an American style it will only be after many years, just as France and England faithfully followed Italy for years before working out something of their own, and just as Rome first and for a long time looked to Greece for its inspiration.

The nearest approach to the development of a distinctively American style is in office buildings, and this for the obvious reason that modern office buildings are distinctively an American invention. Here there is a strong tendency to show the construction with its own natural lines as distinguished from the application of too much ornamental work in attempts to conceal the construction, as was done in the earlier office buildings like the Constable building. The West Street building and the Liberty Tower are among the best examples of the latest type, and the latter at the same time is a good illustration of the tower form of construction seen also in the Singer and Metropolitan buildings, and soon to be seen also in the Woolworth building, and in the Heidelberg tower.

In ecclesiastical work, the fight is still on between the exponents of the classic and Gothic schools, with honors quite equally divided. There is, however, a more general willingness to conceive religious edifices in the classic style in all denominations except the Episcopalian, the pronounced exception being in the First Baptist Church in Pittsburgh, where the Gothic style was employed. Christian Science churches are almost always of the classic type, and Dr. Parkhurst's church in Madison Square remains a leading example of this style.

There are two notable classes of buildings in which America has in the past year maintained its supremacy aside from office structures, and these are school buildings and private dwellings, especially country homes. In school work, strong efforts are being made to meet practical requirements such as light, heat, and ventilation, at the sacrifice, if necessary, of architectural effects. Thus many of the newest school buildings are not as fine, architecturally, as those of a dozen years ago, but the balance of the advantage is entirely in their favor.

Now as to private dwellings, the class of buildings that more vitally interest the average citizen than any other. People of moderate means are coming to realize more and more what they can get of an artistic nature without damage to their bank accounts, by reliance upon a good architect. The character of the work done now on modest homes costing from $5,000 to $10,000 is much superior to that of even a year ago. Styles range all the way from the simplest Colonial to something extremely picturesque, and in every style. The general design is much more carefully considered every year. America's lead in this work is not confined, however, to artistic excellence, but applies also to the requirements of health and comfort in the more liberal use of the most modern heating, lighting, plumbing, and ventilating systems.

Perhaps the greatest single innovation in the construction of the small country residence is the use of tile blocks with stucco applied to the exterior instead of to the outside framework of wood or brick. In place of brick walls covered with stucco, what is known as the hollow tile has come into use, the stucco being applied directly to the hollow tile. It is largely in this use of hollow tile and cement that the most serious attempts at fire-proof construction are finding their chief expression.

Another point that is being recognized more and more by persons of modest means is that when the house is done something in the way of landscape arrangement is in order, that the house may have its proper setting. The question of planting, for instance, is now regarded as a most important one, that the house may be properly set off by suitable environment. Most architects who are today doing first-class country work plan in a general way at the start the landscape treatment that will eventually be followed. Sometimes their ideas are not carried out in detail, and especially in larger work the landscape architect has an important function to perform in a field which they do not attempt to enter.

In the general advance in home building the United States took the lead fully 10 years ago, and has steadily maintained it since not only in suburban work, but also in the mammoth city apartments and family hotels, where the heavy premium on space gives the architect and builder an entirely different set of problems with which to struggle, and new solutions for these problems are being worked out all the time.

Beyond doubt the newest thing in the building line is the loft for business purposes, as now seen at every step in the district bounded by Union and Madison Squares and Fourth and Seventh Avenues, and on all the borders thereof. Here the achievements of the past year were most noteworthy, both in the number of new structures and in the mechanical construction of the buildings themselves. In the same class are the big storage warehouses and factories, for which Greenwich Village seems likely to be famous. In this work there has been little attempt at architectural achievement, as everything else has been neglected in the effort to get the maximum of floor space and light from the minimum lottage. Several good architects have found it well worth their while nevertheless to specialize on this class of work, and the future ahead of them in this field appears to have no limits.

Another accomplishment of 1910 in New York city is found in East Seventieth street, where the old and vexatious problem of sanitary tenement-house construction has found its latest and best solution in the Vanderbilt and open-air stairway tenements, which are at present under way. The latter is in the form of a hollow square, with open-air stairways at each corner of the inner court, as the sole means of entrance to the tenements.

The year's offerings of new building materials were not noteworthy as foreshadowingany marked transformations in building methods or construction. At least, it can hardly be said that anything that has appeared within 12 months has yet secured a permanent place in the supply market. A Western idea that attracted much notice was a glass brick, by the use of which, it is claimed that windows may hertafter be dispensed with, the purposes of ventillation being accomplished by a system of ducts. Many practical considerations of a vital nature have thus far deprived this claim of a serious hearing in this part of the country.

Reinforced concrete has become more permanently established as a building necessity than ever before, but without special developments of an important nature. A notable feature of concrete work has been the perfection of color applications. Many architects say that the future of concrete for the finer building purposes lies almost wholly in its color handling. The natural color of concrete is monotonous, to say the least, and it has only been at considerable expense that pleasing color effects have been secured with the material. The manufacturers are taking up the subject seriously with final results yet to be determined. The new Chelsea docks are considered to be, perhaps, the most successful working of concrete that has yet been accomplished. Their rough surface of a creamy color like light limestone produces an effect that might be mistaken for an attempt to imitate the natural stone, but this may be due to the massiveness of the structure rather than to its treatment.

Within two or three years there have been wonderful strides in the development of brick manufacturing, and it is now possible to get brick possessing very desirable qualities in color and texture. The Lotos Club in New York and the new government buildings at West Point show this innovation to excellent advantage. For roofing materials, asbestos shingles, though not new within the year, have made long strides in general popularity, and one manufacturer is actively exploiting a tin imitation of the well-known Spanish tile.

VAN ARSDALE—COSTELLO.

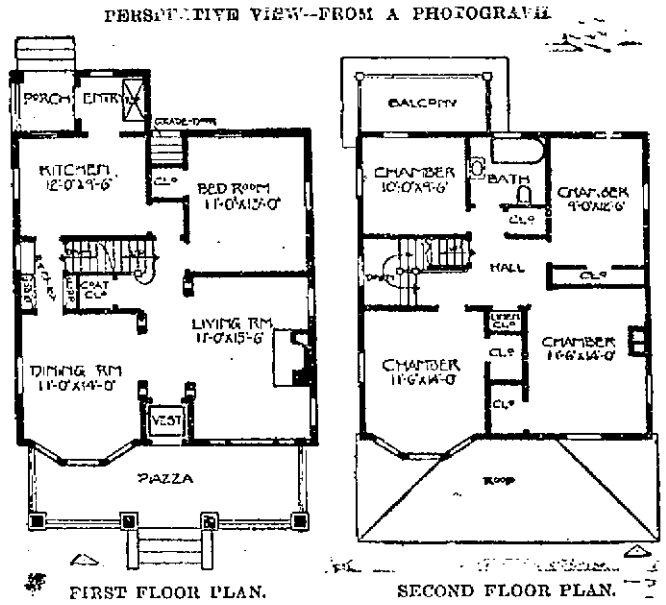
Mr. Arthur A. Van Arsdale of this city and Miss Mary J. E. Costello of Providence were united in marriage by Rev. Father Dowling at the Cathedral in Providence Wednesday afternoon. The bride was attended by Miss Winnifred Jones as bridesmaid and Vincent Costello, a cousin of the bride, acted as best man.

Following the ceremony a reception was held at the home of the bride's uncle, John Costello. Guests were present from Boston, New Haven, Providence and this city. Mr. and Mrs. Van Arsdale will make their home at 77 Division street, in this city and will be at home after April 1.

CONVENTIONAL, YET ATTRACTIVE,

Design 833, by Glenn L. Saxton, Architect, Minneapolis, Minn.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.



FIRST FLOOR PLAN. SECOND FLOOR PLAN.

First Floor Plan. Second Floor Plan.

This house, though of the conventional two-story type, has distinct individuality in its exterior. The arrangement of rooms utilizes every inch of space and provides many conveniences. This house should appeal to the many who insist on a bedroom in the first story. The finish in the first story can be either of birch or oak, and in the second story of pine to enamel, with birch floors throughout. The size of the house is 28 by 30 feet. First story, nine feet; second story, eight feet.

GLENN L. SAXTON.

THE USE OF CAMERAS.

The Tourist Must be Careful About Snapshotting Right and Left When Abroad.

[Pearson's Weekly.]

In these days many people carry a camera exactly as they would a handkerchief or an umbrella, and in the country they are usually free to do so. Almost the only places where cameras are refused admission are dockyards, both public and private; forts and of course prisons.

Abroad the tourists must be careful indeed about snapshotting right and left. Germany three years ago passed a special bill through the Reichstag dealing with this matter and imposing heavy penalties upon those who infringe the regulations. Damages to the amount of £300, with a fine of £50 or two months' imprisonment, will henceforth be the fate of any one who snapshots a private person, a work of art or the interior of a private building and circulates or publishes the picture without permission.

Persons in the public eye, such as members of the royal family, statesmen, actors and well known divines, are excepted and so, too, are public buildings and works of art in public galleries. It need hardly be said that it is risky in the extreme to attempt to take pictures of any forts or warships belonging to foreign countries. Even to carry a camera when within the lines of a fortified town exposes the owner to the risk of arrest.

In Portugal the authorities are curiously suspicious. A gentleman recently wrote to a London paepr saying that he was pulled up for snapping the royal palace at Cintra. It is possible, however, that under the new Portuguese regime the palaces will no longer be held so sacred. In Italy the camera of the tourist is made a means of providing revenue for that somewhat impoverished country. If you carry your camera when on a visit to Pompeii or others of the recently excavated ruins you may take as many photographs as you please, but you are forced to pay a small fee for each plate exposed. There are many parts of the world where the use of a camera may not be actually illegal, but yet is excessively dangerous.

The Chinese have a horror of being pictured. They have the idea that the possession of the photograph of any individual gives the possessor some form of mystic power over that person. Many savage tribes in Africa have a similar belief and natives placed before the camera, will hide their faces with their hands.

The same superstition holds good even in some parts of Europe. In January, 1907, a Montenegrin priest was driven out to sea in a small boat and eventually wrecked off Cattaro. Some ill disposed person spread the report that he had taken a photograph of his daughter and her husband in church after their marriage. This was considered sacrilege and the unfortunate offender was refused sanctuary, and in consequence very nearly died of hunger and exposure.

For New England Farms

NEW ENGLAND ANIMAL FERTILIZERS

FERTILIZERS WORTH BUYING

We want a few more responsible local agents, men of good standing, to sell in localities where we are not at present represented.

New England Animal Fertilizers

are made from Rendering and Packing House Products—Bone, Blood, Meat, etc. They are made on the formulas best suited to New England soils, and are complete and reliable in every respect.

READ WHAT THIS MAN SAYS:—

"I shall want to nearly double my order for New England Superphosphate. I have been using myself and selling this particular brand for raising corn, and it has given the best of satisfaction all around. I used 1000 lbs. per acre, and got about 115 bushels of handsome corn to the acre."

H. S. POMEROY, Suffield, Conn.

And then write us for terms, etc., if we have no local agent in your town. Ask for our Crop Booklet.

NEW ENGLAND FERTILIZER CO., Boston, Mass.

ASQUITH DRIVES VETO BILL.

Measure Secures Whole Time Until Easter, Under Cloture.

LONDON, Feb. 17.—In the House of Commons, after a nine hours debate, Prime Minister Asquith's motion, appropriating the whole time of the House until Easter to the veto bill, to put it through before the coronation, was carried under cloture, 196 to 118.

During the course of the debate the prime minister said he expected that the veto bill would be sent to the House of Lords early in May, and that the Lords would give their decision thereon before the coronation. This optimism on the part of Mr. Asquith is interpreted in some quarters as indicating the possibility of a compromise, for it is contended that otherwise it would be vain to hope that the bill could be disposed of so quickly. Thus far, however, the Unionists give no sign of relenting.

FOR A NATIONAL STUD.

Mr. Thomas W. Lawson Seconds Mr. Belmont's Offer of Stallions to the Government.

"If the government will accept the suggestions of Mr. Belmont for the improvement of the standard of horses in this country and will establish a commission to see that those ideas are carried out, I will add my trotting stallion Daredevil, 2:09, which cost me $50,000, to those Mr. Belmont will present to the government and will give free the services of eight or 10 of my stallions," said Mr. Thomas W. Lawson, financier, sportsman and horse breeder, referring to the sportsman's dinner in New York. Mr. Lawson has owned some of the finest horses in the country, and his stallion Thunder Cloud or Carmon, which he sold to the government several years ago, is now in the stud in the West.

"Mr. Belmont is perfectly right in everything he said at the dinner at the Waldorf," said Mr. Lawson, "and if the government will adopt his suggestions and accept his offer of his stallions and the services of his others it will be a step toward improving the standard of our horses, especially those for cavalry purposes.

"The expenditure of $100,000 a year for five years by the government would start the plan going nicely and in a few years the country would be flooded with good horses. If the government will accept Mr. Belmont's offer and mine, which I will make formally to the government if the movement is continued, I am sure that at least 20 other persons in the country will offer stallions free.

"The government should buy and accept stallions from persons who will doubtless become interested in the project proposed by Mr. Belmont and should charge from $25 to $50 stud fees. In that way the government would not only get its money back and interest as well, but would enable the farmers to breed their mares to well bred horses at prices which they pay for ordinary service today.

"The general standard of our horses is deteriorating. Of course, in carriage horses, show horses and that sort of thing we still lead, but our army horses are plugs. I pay a good deal more today for a pair of farm horses than the government does for a pair of cavalry horses.

"By all means, let us get together with the government on the matter and have in the United States the finest horses tha are to be found anywhere in the world. I feel confident now that the movement started by Mr. Belmont will be taken up all over the country and that the government will see the wisdom of his suggestions and accept them."

Favorable consideration will be given by Secretary of War Dickinson, when the offer reaches him officially by Mr. August Belmont of six stallions to start a national stud. There is no appropriation now under which the horses may be purchased, but it will be possible to strain a point and lease the stallions at a nominal fee per month if the offer is made. It is well known that the government is unable to better the breed of horses for the cavalry and artillery. Mr. Belmont's offer suggests one way.

ARMY CAN ACCEPT HORSES.

War Department Officials Will Give Attention to Offers of Thoroughbred Stock.

Opinion is expressed at the War Department that there is no law which would prevent the acceptance by the army of the offers which have been made by Mr. August Belmont and Mr. Edward B. Cassatt of New York, the Maryland Jockey Club and others of blooded stock for the breeding of better horses to serve as remounts for the United States army.

Mr. Perry Belmont, who originated the military steeplechase in 1905, which is run yearly at the spring meeting of the United Hunts Racing Association, of which he is president, had several conferences ith Major General Wood, chief of staff; Brigadier General Aleshire, quartermaster general, and other officers about the matter. Mr. Belmont also made a suggestion that horses accepted for breeding purposes be carefully scrutinized. He mentioned the system of the French government, whose inspectors pass upon the soundness of all horses which are to be purchased for breeding purposes. The suggestion will receive consideration.

Mr. Cassatt, the son of the late A. J. Cassatt and formerly a captain in the Thirteenth cavalry, also called on Major General Wood to make an offer on his own behalf of three thoroughbreds. He was presented to Secretary of War Dickinson who will give attention to the offers of Messrs. Belmont and Cassatt in a short time.

UNDER CHARTER CHANGES.

Jamestown People to Vote on Ferry Consolidation—Providence Road Anxious for Action.

The amendment to the charter of the Newport & Providence railway, which was introduced in the General Assembly in the first part of the session is still in the senate committee on corporations, where it was referred. The amendment to the charter of the Jamestown & Newport Ferry Company, which this week was passed by the senate and is now in the house committee on Corporations, it is expected will be reported Tuesday and it is hoped to secure for it immediate consideration. As soon as the bill is passed a call will be issued for a special town meeting in Jamestown and 14 days later the people of that town will have an opportunity to vote upon the proposition to consolidate the two ferries.

The delay in the senate is troubling the railway people, for they too have reasons for the exercise of speed, since they have options which are now dangerously near expiring. If the bill can be put through the upper body there is no fear but it will given speedy consideration in the lower branch, for the two corporation committees are geared up to entirely different speeds, the senate committee having been on the slow-speed notch all the session. In both cases the company managements are ready to show progress as soon as the law provides the way.

CORNE AND BOTTOMORE.

Continued from Tenth Page.

der supplied with game, by his rod and gun. He had a dog which was credited with saving at least one child from drowning.

Mr. Corne (Michelu Felix Corne—with a French accent on the last e—and it sometimes appears to be Corna on the city records), in September, 1822, bought the estate at the corner of the street which bears his name and Mill street. He took his title from Silas Gardner, by Thomas H. Mumford, executor, Mary Gardner also releasing her right of dower. Mr. Gardner bought the property of Christopher Rhodes and Mary, his wife, in December, 1820. The deed to Mr. Corne conveys considerably more land than has been in the estate for a long time, and also a stable standing on the land. The estate was then bounded south, 75 feet, on Pelham street; west, 193 feet, on Bannister street; north, 75 feet, on Mill street; east, 189 feet 16 inches, on land of Benjamin U. Carr and Samuel Carr, and land of the late Thomas Rhodes, deceased. Thus it appears that Bannister was honored by having a street as well as a wharf named for him. Moreover, it is said that Pelham street, at its upper end, was about the same as a cart path and was called Bannister's lane. Mill street was Carr's lane.

Mr. Bottomore also bought real estate. His first purchase was in November, 1826, when he bought of Phebe P. Mumford, administratrix of the estate of Thomas H. Mumford, by authority of the supreme judicial court and under a decree of the probate court of Newport, the land east of Mr. Corne's, bounded 50 feet on Pelham street east (93 feet 8 inches) on Nicholas Underwood, and north on Samuel and B. U. Carr. It appears that it had been the property of William Rhodes. In 1827 he bought through to Mill street, from Samuel and Benjamin U. Carr, and their respective wives, Mercy and Sally. This land bounded east on land formerly of James Hammond, but bought of him, on the day of Mr. Bottomore's purchase, by the Messrs. Carr, "Gentlemen."

In June, 1831, Mr. Bottomore sold his land to Daniel Tisdale, merchant, who had bought the land each of it. "Michael F. Corne" was a witness on one of the deeds. After Mr. Bottomore inherited the Corne estate, he sold, in 1850, to Dr. Samuel W. Butler, land bounded south, 75 feet, on Pelham street; east, 92 feet 6 inches, on Daniel Tisdale, and west, 87 feet 6 inches, on "Corne" street. The witnesses on this deed were Mary J. Howland and Benjamin B. Howland, the latter being also the justice of the peace and town clerk.

NEED OF GAME LEGISLATION.

[Dillon Wallace in Outing.]

The condition of our game in many Western states is startling. For instance: The White Mountain region of Arizona, which I traversed on horseback, is an ideal summer and winter range for elk, and formerly sustained great herds of them. Of these herds not one individual representative remains. My trail carried me over plains where a few years ago thousands of antelope roamed. I saw but six. These references are to unreclaimed, unsettled regions.

It was only in recent years, as I have said, that our federal and some of our state governments took cognizance of the fact that wild game animals were of economic value and might be reckoned among our national resources. In an age and country where the accumulation of wealth is the first consideration of the people, nothing but economic or money value would appeal to legislators. Sentiment alone would never lead to any effort on their part to protect or perpetuate the wild things of the wilderness.

TO DISORGANIZE MARINE BAND.

House Resolution Prohibits Competition of Military Organizations With Civilians.

[Army and Navy Journal.]

During a rush of small bills in the House this week a resolution was passed which, if it becomes a law, will not only disorganize the famous Marine Band, but will do much to lower the standard of all bands in the service. The resolution provides that military bands shall not be permitted to take part in any private entertainments for money in competition with civilian bands. As every one knows, it would be impossible to maintain such a magnificent band as the Marine on the pay which its members receive from the government. Most of the members of the band could command two or three times the salary which they receive from the government in private organizations. Necessarily the members of the Marine Band and a number of other crack military bands must depend largely on private employment for their means of livelihood. It is hoped that the Senate will allow the resolution to sleep in committee.

FLYING MACHINES IN BOSTON.

The exhibition of aerial craft which will be held in Boston, under the direction of Chester I. Campbell, promises to present to the public a number of startling features in the way of flying machines, never before seen under one roof. Mr. Campbell has several special representatives scouring the country, closing contracts with famous flyers to exhibit their machines at this show, and a fine array of aeroplanes will be on view to all who visit the Mechanics Building. Such machines as Grahame White's, Wright & Co's. biplane used by Ralph Johnstone in his record-breaking altitude flights, the famous De Lesseps Channel machine of Blerlot type, a number of various types from the Burgess-Curtiss Company and many others will be there, and so arranged that the public can become intimate with the construction and machinery of these world-famed flying machines.

Arrangements are made to have lectures by Augustus Post, winner of the international balloon trip last season, the balloon sailing in the Canadian wilds. Lectures will also be given by M. Helm Clayton, J. Emery Harriman, Albert Adams Merrill and others prominent in aeronautics.

Charles Morok, who is to make a flight over New York, is to be in Boston and essay a trip over the city, weather permitting. Morok flies a biplane with a 75-horse-power motor.

TO BRIDGE THE PANAMA CANAL.

The bridging of the Panama canal is favored in the report of the engineer board appointed to investigate the conditions. The board recommended the construction of a bridge 175 feet above the surface of the canal at Empire, where convenient connections could be made with the Panama railroad. The bridge, if constructed, will serve both railway and highway traffic.

THE PENSION BUSINESS.

Congressmen Often Held Responsible by Their Clients for Iniquities of System.

[Willard D. Eakin, in Lippincott's.]

One of the worst features of the pension business from the Representative's standpoint is that he is often held responsible by his clients for the inevitable iniquities of the pension system. Some poor man's claim may be rejected by the Bureau of Pensions because of a tetchnicallity in the law which can not be gotten around, although his service was long and faithful and his present indigent condition has resulted directly from wounds he received in the service; while a wealthy man of his acquaintance is allowed a generous pension, though never disabled and in no financial need of it. The poor man sees the injustice of the thing, but does not understand. He realizes with Mr. Bumble that "the law's an ass," but he fails to see that it must be so. The two men's claims are under different acts of Congress; the poor man's happen, perhaps, to be such that it is covered only by the general pension law, which considers claims strictly upon merit, with all technicalities working against the claimant; while the rich man's case comes under the "age" pension law, which allows a pension to all veterans now past 62 years of age, who served 90 days or more in the Civil or the Mexican war, without regard to any other details. The purpose of the latter law was to cover the thousands of cases which are practically alike, and in which, almost universally, a pension is needed and deserved, thus economizing in the time and expense involved in the collection and consideration of enormous quantities of detailed evidence in individual claims. But the poor and deserving man, only because he is under 62 years of age or his service was in an Indian war, or because he is unable to locate and get testimony from the comrades who saw him wounded, finds his claim disallowed, and as the Congressman represents to him the government, as well as being his representative before the government, he is likely to put upon him the responsibility for his wrongs, while as a matter of fact the Representative has been doing and continues to do all in his power for the man. All of which aggravates the Congressman's troubles.

There is one class of pensions, however, which the member of the House does have the power to dispense. These are pensions by special act of Congress, and each member is able to get through from one to a half-dozen pension bills at each session. The purpose of the provision by which these special pensions are obtained is to cover such cases as the bureau is unable to allow on account of technicalities in the law. The private bills are considered by the committee on invalid pensions, and their action is practically final, as the committee's report is almost invariably accepted by the House and Senate. But, again, a member of Congress can hurt himself politically in a community more by securing a pension for an undeserving man than by failing to secure one for a man who deserves it, and it adds to his troublesome small activities to discriminate between the two cases and make sure that he gets no pension undeserved.

Although only the most urgent cases can be relieved by special bills, it is usually an easier matter to introduce bills for all applicants, arrange them in order according to merit, and let the committee do the rest, than it would be useless to introduce a bill for him. Thus it is that at every session of Congress hundreds of private pension bills are introduced only to be allowed to die a natural death, without having been acted upon at all, at the end of the Congress.

THE PENSION BURDEN.

[Boston Transcript.]

The Senate committee on pensions did not prune the Sulloway pension bill sent up by the House to such an extent as to endanger the popularity of the majority of its members with its proposed beneficiaries. It reduced the addition to the pension change by only about $5,000,000 and then, by a vote of 8 to 3, ordered the bill to be favorably reported. Should it become a law as amended it will raise the annual pension charge of the nation from $155,000,000, as it is now, to the neighborhood of $200,000,000. That is, the army that was will, every year, cost the United States twice as much as the army that is. The legacy of the Civil war, ended 45 years ago, will call for taxation to an amount not much below the annual cost of our present army and navy combined. And who will dare to say if $200,000,000 is the pension aggregate that the ultimate amount has been reached? Pension legislation grows by what it feeds on. Both parties are anxious for the soldier vote. There was a rush to press the Sulloway bill in the House last month. Cannon left the chair to hasten the operation. Only a handful of members had the courage to protest against piling $45,000,000 or $50,000,000 upon the present charge of $155,000,000. Such approximations to unanimity in pension raising have been common in the House, and are largely responsible for the growing volume of the stream that flows from the Treasury to the pension agencies.

No one objects to generous treatment of the veterans of the Union by Congress, but every one is, or ought to be, interested in inducing Congress to be just before it is generous, just to the taxpayers before it is generous with their money for the political benefit of its members. To all such remonstrances the ever ready retort discourteous of Congress is that the protestants desire it to be "mean" with the "old soldiers." To this reproach the sufficient answer is that a nation which has paid out in pensions in the past 45 years the enormous aggregate of $3,976,611,125 should be exempted from being called mean, if it remonstrates against a sudden increase of 30 per cent in the annual grant to the pensioners. Pension disbursements increase in direct proportion to the decrease in the number of the pensionable. Up to 1890 the pension charge in any one year had never touched $100,000,000. From that time it has grown by leaps and bounds. Two years ago it reached nearly $162,000,000, and every one said that was the high water mark. For the next fiscal year, without the Sulloway addition, the total would be nearly $155,000,000.

The additions Congress makes to pension rates are given without the slightest reference to taxation. This is evident from the Sulloway increase of the pension to veterans of 75 from $20 to $30 a month. At the latter rate the annual pension is $432 a year, which is equivalent to the taxation on almost $27,000 worth of property in the city of Boston. In this way the pension charge is brought directly home to the pocket of taxpayers, who moreover are left to the reflection that unless a Presidential veto is interposed, there is no guarantee against an increase of their burden in the near future. No deserving old soldier will be in danger of starvation under the present schedules. The country at large will see that veterans are made comfortable in their old age. It never will forget its debt of gratitude to the men who saved the Union; neither is it likely much longer to ignore the motives that really inspire Congress to pile pension charge on pension charge.

PAUL SINGER'S SUCCESSOR.

Molkenbuhr of Saxony Head of Social Democrat in The Reichstag.

BERLIN, Wednesday, Feb. 8.—Herman Molkenbuhr, a member from Saxony, has been elected president of the social Democrat faction in the Reichstag, thus receiving the mantle of the late Paul Singer, who up to his death, shared the presidency of the faction with the aged leader, August Bebel.

Bebel has been compelled to retire almost completely from active politics on account of his age and health, leaving the responsibility for the parliamentary tactics on the shoulder of Molkenbuhr. The latter is a writer, originally a cigar maker by trade, who, on account of his political activity, was expelled from Germany in 1881 and spent three years in the United States. He is a hard political fighter, as pugnacious as Bebel and aroused the Reichstag this winter with a flat declaration that his party was working for a republic in Germany. He entered the Reichstage in 1890 as a representative from Berlin and was first defeated in 1906, after which a seat was found for him in Saxony.

The present trend in the party appears to be against the iron discipline and autocratic authority enjoyed by Bebel and Singer and the new leader's rule will probably not be so unquestioned. A sign of the times is the decision not to give the seat, made vacant by Singer's death, to any one the prominent leaders, but to choose as a candidate one of the socialist workmen in the district.

DEATH DUE TO HEART TROUBLE.

Former Governor Lord of Oregon Passes Away in San Francisco.

SAN FRANCISCO, Feb. 18.—Former Governor William Payne Lord of Oregon died last night of heart trouble. He was 72 years old and a native of Delaware. He was elected governor of Oregon in 1895. From 1898 to 1903 he was United States minister to Argentina.

A $500,000 LOSS.

Fire Destroys Calumet Elevator and Bushels of Grain in Chicago.

CHICAGO, Feb. 18.—Fire destroyed the Calumet elevator, a six-story store, containing 500,000 bushel of grain last night, causing a loss estimated to be $500,000. Seven firemen were injured while escaping from the burning building, following an explosion of grain dust.

WILLIAM ROCKEFELLER BETTER.

His Early Complete Recovery From Lumbago Looked For.

NEW YORK, Feb. 18.—William Rockefeller, who is ill at his home on Fifth avenue, continues to improve in condition, it was stated at his residence today. Mr. Rockefeller is suffering from an attack of lumbago, the result of a cold contracted several days ago. His condition, it was said, has not been at any time considered serious, and his early complete recovery is looked for.

SIGNALS MISUNDERSTOOD.

Eight Persons Badly Injured in Train Collision at Monongahela.

PITTSBURG, Feb. 18.—Eight persons were seriously injured last night, when a passenger car and a freight car on the Charleroi division of the Pittsburg Railway Company collided at Monongahela, near here. A misunderstanding of signals caused the accident.

A FALL RIVER PHYSICIAN.

Dr. Sweeney, Who Ate Poison by Mistake, Dies in Baltimore.

BALTIMORE, Feb. 18.—Dr. John W. Sweeney of Fall River, Mass., who swallowed bichloride of mercury here last Sunday night, died at the hospital today. Dr. Sweeney told the physicians, who were summoned shortly after he had taken the poison, that he had eaten a tablet of bichloride of mercury in mistake for candy. He was 25 years old and married.

COURT GIVES DECISION.

Illinois Only State Without Power of Regulation Over Express Rates.

CHICAGO, Feb. 18.—The state railroad and warehouse commission holds no jurisdiction over express companies, their rates or practices within the state of Illinois, according to a court decision, the details of which became known yesterday. Judge C. C. Kohlsaat of the United States circuit court gave the decision in a formal order ruling the demurrer of the state commission to the bill introduced last fall by the express companies for an injunction restraining the commission from reducing their rates. Bills conferring specific power on the commission over the express companies are before the legislature for consideration. At present Illinois is said to be the only important state in the union that has no power of regulation over express charges.

CHARGED WITH MANSLAUGHTER.

A Newton Automobile Manufacturer Held for Death of Malden Child.

MALDEN, Mass., Feb. 18.—Manslaughter, as a result of alleged criminal negligence, was the charge preferred against Freelan O. Stanley, an automobile manufacturer of Newton, in the Malden court today. Mr. Stanley, whose car struck Vivian A. Black, an eight-year-old child, who died today from the injuries received, pleaded not guilty. He was held in bonds of $1,000 for a continued hearing March 9. Judge Bruce ordered an inquest to be held next week, and an autopsy will be performed this afternoon.

Mr. Stanley says the accident was unavoidable. He was driving along Highland avenue yesterday, when the Black child ran across the street in front of the car. Mr. Stanley claims that he slowed down the automobile, and the child passed by in safety, and immediately ran back in front of the car again. Mr. Stanley said that he put on the brakes and the child passed by the front of the car, but the rear wheels slipped on the street, and the car guard struck the child. She was taken to the hospital in the Stanley automobile.

ALL AMHERST MOURNS.

Funeral Services for Dr. Hitchcock Held in the College Church.

AMHERST, Mass., Feb. 18.—College exercises were suspended for the entire day out of respect to the memory of the late Dr. Edward Hitchcock, for 50 years a member of the Amherst College faculty, whose funeral was held in the college church this afternoon. While the funeral was in progress all the business houses in the town were closed. The fraternity houses were draped in mourning, and the college flag was set at half staff.

The services were conducted by President George Harris of Amherst College. The body was escorted to the church by a procession of students, the seniors wearing their caps and gowns. The body was borne into the church by the presidents of the four classes. The pall bearers included Dr. Hitchcock's four sons, and Dr. Paul C. Phillips, his successor, and Professor R. S. Neilligan of the college faculty. The interment was in Wildwood cemetery.

PROFESSOR MUNRO RESIGNS.

Member of Brown Faculty to Engage in Literary Work.

PROVIDENCE, Feb. 18.—Professor Wilfred H. Munro, A. M. L. H. D., for 20 years professor of history at Brown University, has resigned, to take effect September 1, 1911. He plans to devote himself to literary work. At the meeting of the corporation next June he will be elected professor emeritus and will thereby receive the university pension. He will be succeeded by Dr. Theodore F. Collier, now assistant professor of history at Williams College.

GOVERNMENT WILL RESIST.

Can Prosecute Both Criminal and Civil Suits Against Trust.

WASHINGTON, Feb. 18.—The Department of Justice will immediately prepare its opposition to the granting of immunity to the defendants in the criminal action against the so-called bath tub trust. The United States circuit court at Baltimore recently ruled that the government could prosecute simultaneously both a criminal and a civil suit against the trust.

The government's case in the civil suit is all in and the defense is now having its inning at Pittsburg. The fight against the criminal suit, however, in which about 35 individuals and 14 corporations are under indictment, has been bitter since the Department of Justice let it become known that it would press for jail sentences and would be unalterably opposed to the infliction of fines.

FOR USE IN THE ARMY.

Germany Gives an Order for Another Balloon of the Parseval Type.

BERLIN, Feb. 18.—The German war office today placed an order for another dirigible balloon of the Parseval type, for the use of the army. The specifications provide that the airship have motors developing 320 horsepower, which will assure a speed of 36 miles an hour. A wireless outfit is to be a part of the equipment.

AN ENGINEER KILLED.

Successful Attempt at Train Wrecking Near Lofty Station, Pa.

TAMAQUA, Pa., Feb. 18.—A desperate and successful attempt at train wrecking, in which one man was killed, occurred early today near Lofty Station, on the Philadelphia & Reading Railway. According to officials an investigation showed that some one had placed an obstruction in a switch, causing the locomotive of a local passenger train to jump the track on a steep embankment. The engine ran along the ties for a short distance and then toppled over and plunged down the incline. Samuel Glitner, an engineer, was caught under the locomotive and crushed to death. His fireman was not injured, nor were any of the passengers.

LORIMER TO SPEAK.

To Address Senate on Questions of Charges of Bribery in His Election.

WASHINGTON, Feb. 18.—Senator Lorimer gave notice today that he would address the Senate next Wednesday on the questions involved in the charges of bribery in connection with his election.

IRON WEDGED IN SWITCH.

Railroad Officials Believe Train Was Maliciously Wrecked.

PHILADELPHIA, Feb. 18.—Officials of the Philadelphia & Reading Railway in this city said today that the train derailed near Tamaqua was no doubt maliciously wrecked, and that everything possible will be done to find the perpetrator. Many foreigners live in the vicinity. A piece of iron was found wedged in the switch after the accident according to the company's information.

National Bank of Belgium's Rate Reduced.

BRUSSELS, Feb. 18.—The rate of discount of the National Bank of Belgium was reduced from 5 to 4½ per cent today.

FINANCIAL.

NEW YORK, Feb. 18, Wall Street—The market opened with Amalgamated Copper at 64½, American Beet Sugar 44¾, American Smelting and Refining 78¾, Atchison, Topeka & Santa Fe 105⅞, Baltimore & Ohio 105½, Brooklyn Rapid Transit 78⅝, Canadian Pacific 212½, Chesapeake & Ohio 85, Chicago, Milwaukee & St. Paul 125½, Erie 31¾, Missouri Pacific 58¼, New York Central 111½, Northern Pacific 127, Reading 158¼, Rock Island 32⅛, Southern Pacific 118¾, Southern Railway 28⅝, Union Pacific 178, United States Steel 80½, United States Steel preferred 119¼, Lehigh Valley 176.

11—Operations on the long side of the market were conducted with growing confidence and were reflected in steadily rising prices, in face of the realizing sales which the rise induced. Round amounts of the important issues were bid for and as they forged steadily upward the whole market followed suit. By the end of the first hour advances had been effected of about 1 point in many of the favorite stocks, including United States Steel, Reading, St. Paul, Southern Pacific and Lehigh Valley. The new city bonds touched 102, the highest price yet reached.

Closing—The market closed active and strong. Further improvement was shown by the market in the final hour on a fairly large volume of business. The advance was quite general and in numerous instances reduced to an inconsiderable degree. Losses were recorded in the mid-week's decline.

Prime mercantile paper 4 to 4½ per cent. Sterling exchange steady at $4.83.40 @ $4.83.50 for 60 day bills and at $4.86.25 for demand. Commercial bills $4.83 @ ¼. Bar silver 52¾. Mexican dollars 45. Government bonds steady; railroad bonds firm. Exchanges $364,[illegible],818; balances $12,-074,251. For the week (five days). Exchanges $1,633,[illegible]3,685; balances $68,853,479.

Kirwin,	73	80	66	219
	393	404	358	1155

A GLUCK AND WEBER EVENING.

Gluck and Weber were the subjects of Mrs. T. W. Freeborne's Friday evening's study hour, so grouped for their connection with the evolution of the opera, and for their far-reaching influence on the music drama and other departments of musical composition.

Mrs. Freeborne spoke somewhat at length of Weber, the man and his work. Representative music were the Gluck overture, "Iphigenie," played by Mrs. Freeborne and Miss Bessie Anderson; Weber's masterpiece, the overture to "Der Freischutz," by Miss Kathleen Cavanagh and Mrs. Freeborne, and three selections from Weber's pianoforte music, the Polacca Brilliante, the well known invitation to the Valse," and the beautiful adagio from the sonata in C Major, op. 24.

Other music, not germane to the evening's subject, was given by Mrs. Freeborne and Miss Gladys Dewick (Donizetti's "Daughter of the Regiment"), and Masters Edward Holloway and Frank Cooper.

Beethoven will probably be the subject of next month's work.

ON THE TANNER DANCE PROGRAM.

The program for the Tanner dances will include the following numbers of the Dance Solo: "An Arcadian Idyl," music by Schumann; "The Song of the Siren," music by Strauss, with an introduction by Delibes; "An Archaic Court Dance," "The Canaries," "The Russian Wedding Dance," and a suite of three Oriental dances, the music for one of which is from the operetta, "The Rose of India," composed by Mr. Charles P. Scott, formerly of Newport. This music was performed for the first time at the Christmas pantomime in Boston last year, in the Indian scene, where Miss Tanner posed in the final tableau on the famous elephant Marharaj, which was put on to Keith's stage with much difficulty. This music of Mr. Scott had such a true Oriental flavor that Miss Tanner immediately adopted it for one of her characteristic Indian pictures, the Cymbal dance.

For the Indian suite Miss Maher is preparing an adaptation of an Oriental poem.

The stage is to be built out, sacrificing several rows of seats but adding to the scenic effect, for the regular platform would not be half large enough for an elaborate dance. The usual cyclorama curtains used by dancers will be there, but with a difference, for the stage will present the appearance of a Greek Temple and the footlights will give quite a different air to the

DESIRE FOR PRIVACY.

Reason Which Brings to Newport Many Who Would Object to a Hotel.

Difference Between a Real Summer Resort and a Location for Summer Residences.

To the Editor of the Daily News:

As I have lived in Newport both as a summer and winter resident for a good deal more than five years, I feel that I must say a few words in answer to the letter that Mr. Burdick gave to your issue of February 16. Mr. Burdick's correspondent may have had his eyes open during the five years he has lived here, and he may have seen certain of the most obvious and unfortunate tendencies of the place, but there seems to be a great deal beside that he has not been able, or willing to see.

In the first place, in the undeniable exclusiveness here he seems to see merely snobbishness, whereas a large part of it is only a natural desire for privacy. Of course some people may cry out at the use of the word "privacy" in connection with Newport, yet it is true that a great number of summer residents have built homes here in order to enjoy the beauties of nature and the society of their friends, and although they wear good clothes, and own diamonds, and perhaps even possess lap dogs, they are after all not yet wholly depraved by their money, and are still sufficiently human to be annoyed by the vulgar curiosity of people who have read trash about Newport in the cheap Sunday papers. Surely, if this large and conservative class has chosen to settle in Newport rather than in Narragansett or Jamestown where the climate is identical) it must have been largely just for the sake of this so called "exclusiveness," and whether the builders of the new hotel approve of exclusiveness or whether they do not they had better take care, lest by destroying it they do not destroy also the city's chief hold upon its best class of summer residents.

Now for the matter of those who would like to see Newport a real "summer resort" and not merely a "location for summer residences." In regard to this, Mr. Burdick's correspondent complains rather rudely that people who come here without introductions are not asked to the cottages, may not be able to get themselves put down at the Casino, and cannot afford to join the golf club. Whose fault is this? Surely, theirs for coming. America is full of summer resorts, just as pleasant as Newport, but where the clubs are open to all, and where the hotel population welcomes every one, even the young man who gets his board free on the condition that he "gives the girls a good time." If the people whose cause Mr. Burdick's correspondent undertakes to champion find Newport too exclusive, why do they come here? And if they think so meanly of the summer residents with "their lap dogs and jewels" why do they desire to associate with them?

As well as I can judge, the writer of the letter seems to suggest that if Newport had a large hotel, with a restaurant like Sherry's or the Ritz-Carlton, a great many people who have no friends here would come to stare at those whose names and reputed doings they have read of in Town Topics and the yellow journals. Perhaps by ludicrously dressing the part they might even attain to the joy of being themselves mistaken, by outsiders, for members of the same set. Doesn't this sort of thing go on all the time in New York?

Granted that it is very reprehensible to be rich and fashionable, surely it is no better to pretend to be so when you are not. There is perhaps no type of American as disheartening as the flashy type that haunts the big city hotels, trying to excel in the only art it knows, the art of looking rich. When you see all these magnificently overdressed women, covered with jewels, accompanied by half educated, beastly-looking men, you wonder who they are, for they cannot all be racing men and show girls and curb speculators. Whoever they are, they have no ties, no ideals, few friends. They live chiefly in hotels, and they choose always those places where there is the fullest opportunity of staring, of showing themselves off, of being mistaken for people in better standing.

Anyone who undertakes to build a new hotel in Newport should face this matter squarely. A summer edition of Sherry's or the Ritz-Carlton would undoubtedly attract this particular class. The question is: Would they add anything to the prosperity of Newport? Also, if they came, would the present summer residents stay?

It seems to me that a big, cheap hotel which could be a "lounging place" for young men and women interested in golf, tennis and other sports, on a big, expensive hotel which could "set" as a background for a social chorus whose appreciative looks are most gratifying to a certain class of people who desire to exhibit their secretaries, lap dogs" etc., would both be equally undesirable. Both would, perhaps in the immediate future attract more people to Newport, but whether more people, regardless of their quality, would be a permanent advantage to the city is an open question.

Resident.

Newport, Feb. 17, 1911.

HANDICAP SHOOTING MATCH.

Owing to the bad weather Friday evening, only three of the Providence Revolver Club men tried their luck at the targets this week, and they succeeded in making only fair scores. Almy won with a fair score of 468, with Brooks next at 464, while Easton in spite of his handicap was able to make only 454. When it comes to shooting under difficulties it is a hard proposition to beat the old stand-by, Almy, for experience and nerves will tell in the end.

Brooks won the bull's-eye match with a close centre. The scores:

			Hdcp.	Total.
W Almy,	238	230	—	468
P. Brooks,	230	234	—	464
J. Easton,	224	214	40	454

THE OLD CORNE HOUSE.
Southeast Corner of Mill and Corne Streets.

CORNE AND BOTTOMORE.

Old-Time Artist and His Attendant Quaint Characters of a Former Day.

The One Introduced Tomatoes in Newport, the Other a Victim of the Cholera.

There are books of the late Mr. Zenas L. Hammond which contain the names of many old Newport people. He seems to have carried accounts with almost all the men and women of importance in the town, and some outside of it. The bookkeeping alone was no small job. In the large ledger, over 240 pages are required to contain the accounts commenced in 1836-7, and often there are more than one to the page.

Over one of these is the name of William Bottomore, which calls up a host of recollections and anecdotes. He came to Newport as "body servant" of Mr. Corne, an artist, for whom Corne street is named, because he owned and lived in the house at the corner of that street and Mill. The estate extended well up Mill street and along Corne to the property of the late Dr. Samuel W. Butler, the present Swedish Lutheran church being built on the rear of the Corne land, which was used as a garden. There was a magnolia tree and another large tree on the place and an old-fashioned box-bordered path leading through the garden. Mr. Corne left his property to Mr. Bottomore, who had married one of the Chappell family, and his wife inherited it. Later it went to her heirs and was occupied by one of them, Mr. John Henry Tilley.

Mr. Bottomore (Baltimore, the old folks called him) died suddenly, one of the victims of the cholera epidemic (about 1856) in Newport. At that time a "hospital" was set up in a slaughter house, and the people were so terrified that burials were made day and night and in a way to increase the panic. The late Rev. Dr. Thatcher Thayer in his emphatic manner protested and gave his services that the last rites might be decently observed. It is said that practically every case of cholera treated by the late Dr. T. W. Wood recovered.

The introduction of tomatoes to the list of edibles, it is said, came with Mr. Corne. Previous to that they were considered poisonous. Their old name was "love apples."

In former years one of the large upper chambers in his house was decorated by paintings covering all the walls, depicting fishers hauling nets, a storm at sea, etc. Mr. Bottomore, or "Billy," as he was often called, was a lover of boating and had a small sailboat, which he often allowed others to use. He was near-sighted and had some trouble in distinguishing his boat. If he came down and she was out in the harbor. So he had a special sail, made of alternate strips of blue and white cloth.

When he could, he kept his boat at "Dave Holly's"—that is, "Ferry wharf," The "Wickford packet" and Block Island boat, however, had to land there, and Mr. Holloway had a fleet of his own, among them being two built by Mr. Barlow, on the north side of the old cove, and named Neptune and Favorite for two French ships which visited Newport, in about 1840. Some of Mr. Holloway's boats were sailed by men regularly employed to run them for half the receipts; others were let to customers who sailed for themselves. The Favorite was not the boat of the same name run by Captain Connolly in recent times.

It was the usual thing for French ships, frequently the Jean Bart, to visit Newport, summers, as late as the early seventies, and the British navy was sometimes well represented here. One of the ships well remembered was the Bellerophon, since succeeded by a new ship of the same name, if the writer is not mistaken. This Bellerophon was so big and unwieldly that in turning around, to leave the spacious outer harbor, she was started ahead and reversed, as is done in turning a grocer's wagon in a narrow lane.

Mr. Bottomore is said to have been the son of an English sea captain and born in Barcelona, Spain. He had a sister here, who married a man by the name of Millbridge, as nearly as the name can be remembered. Mason says "Billy" was a confectioner and had a front room in Mr. Corne's house, for a shop to sell his confectionary; also that under Mr. Corne's instruction "Billy" mixed colors, cleaned brushes and could even "wash in" certain parts of the paintings. He says Corne was a decorative painter, a man of a good deal of intelligence, a Neapolitan who rose to be a captain in the army but fled to this country, arriving penniless, on ship Mount Vernon, in Salem, Mass., in 1793. He painted pictures in which he introduced that ship, decorated the walls of the Hancock house in Boston, and the Sullivan Dorr house in Providence and made his fortune painting striking pictures of the naval conflicts.

Mr. Mason says Corne arrived here in 1822 and that in 1830 he was induced to buy an annuity. He was then 72. He paid $1,570 and received $100 every six months until he died—$3,000 in all. With a "wheezy voice and a laugh that almost choked him" he used to say when he received his check "De prezzedent, he say he very glad I so well, but I know he he all de time. * * * My grandfather dig when he 100, my father when he 102, and I—I live forever!"

"Billy" is said to have kept the lar-

A TRIBUTE TO LINCOLN.

Sample Composition by Loretta Nuss, Ten Years Old, from the Lenthal School.

As an example of the letter written by pupils in the Lenthal School, in answer to a request from Superintendent Lull, giving reasons why the children admire Lincoln, Principal Henry W. Clarke submits to The News the following, written by Loretta Nuss of the Seventh grade, certainly a creditable composition for a girl of 10 years of age:

Newport, Rhode Island, Feb. 17, 1911.

Mr. Herbert W. Lull.

Dear Sir: When the twelfth day of February comes, it puts me in mind of the great Lincoln, and my reasons for admiring him are shown in the following:

He was a self-made man who rose from the lowest position in life to the highest, and entirely upon his own exertions, without help of any kind.

Whenever I read an article relating to Abraham Lincoln, I am deeply impressed by his kindness to children and the great love he bore his mother, which he showed us in his words, "All I am and all I hope to be I owe to my angel mother."

Lincoln was very tender hearted, and in times of necessity would not tell even legitimate game. His honesty was indeed admirable. Many anecdotes are told which show this trait very plainly.

He will always be remembered and honored for his freedom of the slaves. On one occasion, when he went on his flat-boat to New Orleans with a cargo to sell, he saw for the first time the horrors of slavery. He said, "If I ever have a chance to hit slavery, I'll hit it hard." His kind nature rebelled at the sight of human being being treated like cattle and owned and ordered around by others. He felt in his just heart that this was not right and fair and that something must be done to change this state of affairs.

I admire the determination he showed in carrying out his purpose, and think that every boy, and indeed every girl can always find traits of character in this noble man to honor and admire.

Yours very truly,
Loretta Nuss.

UNIVERSITY EXTENSION COURSE READING.

The following books in the People's Library are recommended by Mr. Louis Umfreville Wilkinson, M. A., for his course on "Social Conditions of Modern England."

General.

Booth, William, In Darkest England and the Way Out.

METHODISTS SUP TOGETHER.

Address on Horace Greeley By George W. Penniman of Boston.

Incidents of a Country-Wide Trip in the Interest of Sunday Schools As an Introduction.

Although the weather was unfavorable, and promised to be worse, there was about the usual large gathering Friday evening at the annual meeting of the Methodist Social Union, held as usual with the Thames Street Church. Assembled in the cosy Sunday School room, made bright with lights, flowers and table decorations and under the influence of the bountiful supper served by the women of the church, and of the address of the evening, the company forgot the weather outside and gave itself unreservedly to the enjoyment of the occasion.

Mr. T. T. Pitman, president of the Union, was in charge of the exercises and Rev. C. E. Delamater of Middletown asked the Divine blessing. At the conclusion of the supper, the annual business meeting was held, when reports were read and officers elected for the ensuing, as follows, Mr. Pitman declining a re-election.

President—Fred P. Webber, Middletown Church.

Vice President—Chester B. Tallman Thames Street Church.

Secretary—Mrs. John V. Hammett First Church.

Treasurer—Frederick Weir, First Church.

Mr. George W. Penniman of Boston the speaker of the evening, arrived late and left early to catch a return train but during the less than two hours of his stay renewed many former acquaintances and gave a capital address. His topic had been announced as "Horace Greeley," but being given permission to say what he pleased he prefaced his paper with a account of a recent trip which he made in the interest of the International Sunday School work. During this journey he visited 39 states of the Union and three provinces of Canada, and his relation of his experiences in different places and of the progress of the work was so full of interest that many of his hearers would have been glad to have had his occupy his whole time with this subject. As it was, his "introduction was about half an hour long.

The paper on Greeley was a strong and enthusiastic presentation of the life and character of the great editor of the New York Tribune. The essayist traced his career from its humble origin to the time when Greeley was said to exert more influence upon the people and the destinies of this country, through his paper, than any other private citizen. The qualities which made him successful and entitle him to be called great, in spite of his limitations and eccentricities, were developed, and a grateful tribute paid to the character and abilities of the subject of the paper.

Mr. Penniman is a forceful, pleasing and often eloquent speaker, and at times during both portions of his address his hearers broke into applause for the things which he said and the way in which he said them.

At the close of the address a rising vote of thanks was given the retiring president, Mr. Pitman, for his service during the past two years, and the formal program ended with a violin solo by Mr. Edward Ludter. This was accompanied effectively by the mandolin orchestra, which had played during the supper hour, and called forth an encore, which was without accompaniment.
